GRIMSBY, WEDNESDAY, JULY 22, 1925.

\$2.00 Per Year—Cents a Copy

GOOD RESULTS SHOWN FROM CO-OPERATION; ADVERTISING

British Columbia Fruit Men Banded Together and Worked With Others To Advantage—One-Fourth of One Per Cent. of Produce Is Asked To Still Further Advance Canadian Fruit In Eyes of Canadian People.

Every fruit dealer and many growers have known how impossible it has been to get our fruit on the Western Canadian market.

The Winnipeg dealers absolutely would not do business except on their own terms, and the retail men dare not do business with the shipper here because the Winnipeg dealer would cut off the retailer's supply of other goods handled by the commission houses.

And the commission houses also preferred to sell other fruit because it would keep a little longer and they could hold the fruit and regulate the market to their own advantage and profit.

And the combine was all-right. Competition was all but out of the question.

But there was another combination, one that does not contravene the Combines Act of Canada; one that has proven its strength in other ways. That combination was co-operation. Not necessarily a company, but co-operation of growers, and shippers. Growers co-operating with each other; shippers co-operating with each other, and growers and shippers also co-operating.

This combination brought its strength to bear and a commission was appointed to investigate this Western combine. With the result that the Winnipeg gang has at last been choked down to the point where the commission has seized their books. It is needless to surmise what the books will show; the only point in doubt is how much they will show.

The growers of the Niagara Peninsula have been asked to co-operate in another way but with the same

effect—to get their fruit on the market and before the people.

They have been asked to contribute one-fourth of one per cent. of the value of their fruit toward an advertising campaign, undertaken by the Canadian Horticultural Council. This is one of the best forms of co-operation that can be imagined. Foreign fruits are being sold to the exclusion of ours for the simple reason that they are hugely advertised; and consistently advertised; kept before the women of Canada to an extent that their brand-names become household words.

Growers are asked for such a small amount that some think it not worth while; others are too narrow to want to see the benefit; some think there is a Nubian hidden somewhere. But the man that thinks his small contribution not worth while apparently does not stop to think that there are 20,000 acres of fruit in Lincoln County alone; 12,000 in Westwirth; 6,000 in Welland; 7,000 in Halton; 4,000 in Haldimand; and 200,000 in Ontario. Many nickels make a muck, and though his one-fourth may not seem much, his added to others will produce a lot of good will toward Canadian fruit.

Of the second we will say nothing; let the one who thinks there is a joker somewhere, let him be said that NOT ONE CENT OF THE MONEY GOES FOR SALARIES, ETC., but all goes to direct legitimate advertising.

Let more Canadian fruit be the theme. In another column appears an article telling of some of the activities of the commission mentioned above.

CHANCE FOR EASTERN FRUIT TO GET ON WESTERN MARKET

As Result of Activities of Commission Appointed Last Year "Fruit Row" at Winnipeg Is Invaded By Mounted Police and Books Are Seized—Report of Commission of Last February Showed Ground For Inquiry.

In 1924 a commission was appointed by the Dominion Government under the Combines Investigation Act, 1923, to go into the alleged combine in the distribution of fruits and vegetables. The commission started work early in the year, and in February, 1925, reported to the Minister of Labor at Ottawa. It was an interim report, but consisted of some 200 pages and was deemed sufficient to warrant further activities.

(It is a most interesting book.) No report has been printed since, but a despatch appearing in the daily press of July 16 shows that some strenuous action is being taken and all growers, especially those who have wondered why our fruit was not handled more extensively in Western Canada, will be highly pleased. The despatch reads:

Winnipeg, July 15.—Armed with a search warrant issued under the Combines Act of Canada, a squad of Royal Canadian Mounted Police invaded "fruit row" in the wholesale business section of Winnipeg today and seized documents and books of several fruit companies and took complete possession of the offices. Four Nash Brothers' establishments were taken control of—Stirling Fruit Company, Rogers Fruit Company, Dingle & Stewart, and Bright-Emery Company—while the offices of the Mutual Brokers, all connected with the Nash Brothers' business, were visited.

The "raid" was in connection with the J. Lewis Duncan Commission report covering fruit distribution in Western Canada.

Business is allowed to go on in the warehouses, but the bookkeepers are not allowed to handle the books, and no records of sales are being made. Numerous documents were seized, and will be taken to the police barracks.

McRuer To Prosecute

J. C. McRuer, K.C., who will conduct the prosecution under the Combines Act in connection with the Duncan report, visited Winnipeg a few days ago and conferred with members of the Provincial Police.

Mounted Police also visited the business offices of three establishments in Calgary and took control of the books and business papers. The firms are: Mutual Brokers, Acme Fruit Company, and Mitchell Fruit Company, all affiliated with the Nash interests. Officials of the company, protesting that they could not carry on business if all their books were removed, applied through their counsel to get a ruling on the matter. No books were removed from the Calgary offices.

Seizure at Moose Jaw Also

Moose Jaw, July 15.—Officers of the Royal Canadian Mounted Police, armed with search warrants from Ottawa, early this afternoon raided the premises of the Rex Fruit Company, Limited, Moose Jaw, both subsidiary companies of the Nash interests. All records, including account books and correspondence, were seized, and will be held here pending further instructions.

FIREFMEN HAVE GOOD PRIZE LIST

Carnival On Thursday and Friday Nights Promises To Give Lots of Entertainment—Crack Drill Corps Coming.

An attractive program of races has been arranged for the Firemen's Carnival Thursday and Friday nights of this week, and the presence of the crack Thorold Firemen's Drill Corps, and the Thorold High school girls fancy drill team will make a couple of enjoyable evenings. The Carnival takes place on Mountain street and there will be dancing on the pavement. The list of prizes that have been donated follows. The names of the donors are attached to the prizes in Blue Hardware window.

Girl's Race under 11 years, first night—First prize, 1 lb Box Chocolates; second prize, 1 lb Box Chocolates.

Second night—First prize, 1 lb Box Chocolates; second prize, 1 lb Box Chocolates.

Girl's Race under 10 years, first night—First prize, \$1.00 tickets for Moore's theatre; second prize, 1 lb Box Chocolates.

Second night—First prize, \$1.00 tickets for Moore's theatre; second prize, 1 lb Box Chocolates.

Shoe Race for boys under 15 years, first night—First prize, \$2.00 tickets for Moore's theatre; second prize, 1 lb Box Chocolates.

Second night—First prize, Baseball Mitt; second prize, Flashlight.

Married Ladies Race, first night—First prize, 1 year subscription to The Independent; second prize, 3 lb Box Chocolates.

Second night—First prize, 1/2 doz. Photos; second prize, 1 year subscription to The Independent.

The eating contest for boys under 14 years—First prize, \$1.00 donated by T. E. Mannell; second prize, 50 cents donated by T. E. Mannell.

SUDDEN DEMISE OF ISAAC HILTS

Alarmed when he failed to appear at breakfast on Friday morning last, Mrs. James Isaac Hilt, of Franklin, investigated and found her husband dead in bed. He had evidently died of heart failure in the night. He had been in quite good health and his death came as a great shock to his family and many friends. Mr. Hilt was a prominent fruit grower in the district and was a member of the Canadian Order of Foresters at Stony Creek. He was an Anglican in religion. Beside his widow he leaves six sons, Clarence, of New York; Stanley, of Drinkwater, Sask.; and Lloyd, Frank, Judson and Homer at home; two daughters, Blanche and Rena, at home; four brothers, Frank, of Beamsville; Robert, of La Salle, N.Y.; Joseph, of Merrittton; and John of Grimsby; also a sister, Mrs. A. Albright, of Buffalo.

MILK JOURNAL

Agricultural representative W. S. VanEvery, reports that he has received a few copies of the "Ontario Milk Producer", a new Journal devoted to the interest of the production of milk and dairy products. Local dairymen interested are invited to call at the Agricultural Office, St. Catharines, for a free copy.

Do not forget that tomorrow night and the next night—Thursday and Friday—will be the Firemen's street carnival.

PAID UP LIST

THUGS BEAT UP NIGHT WATCHMAN

George Brignall Set Upon By Two Men In Office of Growers Cold Storage and Ice Company.

A desperate attempt was made Wednesday morning about 1 o'clock by thugs to rifle the safe of the Growers' Cold Storage & Ice Co., Grimsby, and they almost succeeded in doing so, but for the watchfulness and bravery of the night watchman, George Brignall, the safe would have been blown open and its contents removed. While making his rounds of the plant at an early hour, Brignall had occasion to enter the business office. Before he proceeded very far in the dark a chair was hurled at him. He then immediately switched on the lights and was confronted by two desperate highwaymen. The thugs had everything ready to blow the safe. Mr. Brignall, who is an athlete and accomplished amateur boxer, immediately closed with his opponents. A desperate struggle ensued. Furniture was overturned and the office was partly wrecked. Brignall was holding his own against the combined efforts of his desperate adversaries, when one of them hit him a wicked blow on the head with a billy, knocking him unconscious. They then made a successful retreat.

The engineer and fireman, hearing the commotion in the office, rushed in and found the night watchman painfully hurt, with an ugly wound in his head.

The police were notified and medical aid summoned. They ordered the wounded man to his home, where he regained consciousness.

The manager of the plant, E. Bonham, was called and reported nothing stolen. He spoke highly of the courage of his night watchman in making such a splendid fight against overwhelming odds.

PRESBYTERIAN CONGREGATION

St. John's Church Members Appeal Board of Managers, J. S. Superintendent and Choir Director.

A largely attended meeting of the members of the St. John's Presbyterian church was held in St. Andrews hall on Monday of last week for the purpose of organizing and appointing a board of managers. W. M. Stewart was made chairman of the meeting. He introduced the new moderator, Rev. Dr. Cowan, and in opening his remarks stated he was very pleased to meet and be with the members of the Grimsby church. The election of managers was taken up, and those elected were Thomas Walker, William Sangster, L. A. Wade, A. W. Kitchner, G. W. Crittenden, John H. Gibson was made treasurer. Donald Livingston was appointed superintendent of the Sunday school, and Mrs. David Hunter has charge of the choir. Miss Hermonston and Rose Hermonston each contributed a musical selection during the evening.

BULL MAKES BULL; ESCAPES LUCKILY

A near fatal accident occurred at the old pier at the foot of Maple ave., Saturday afternoon. Eric Bull, with several companions, was diving from the pier, which has been their habit for several seasons, but for some reason Bull misjudged the distance and struck his head on bottom full force, cutting his forehead so badly that it required five stitches to close the wound. Dr. McMillan states that no other harm was done. This is the second accident that has happened to this family inside of two weeks and in each case the mischief looked serious for a time.

RESTRICTION PUT ON SALES STANDS

North Grimsby Council Will Issue No More Permits Without Ample Provision For Parking

The regular meeting of North Grimsby Council was held on Saturday, July 18.

The Committee that had been appointed to report on a crescent at the North end of Park road reported that it had been approved on the local improvement plan and that the contract had been let.

Deputy Reeve Wm. Stewart and G. W. Crittenden passed a motion that no further permits be granted for stands along the highway unless ample space is provided for parking, so as not to obstruct the highway.

W. H. VanFoster and F. A. Oakes moved that the report of the Committee re cleaning of ditch on Hagar road opposite Johnson property be adopted.

G. W. Crittenden was appointed a Committee, with power to act for the

TO TAKE CARS OF WESTERN CROP

Early preparations are being made this year to cope with the situation in the west as far as the harvesting of the wheat crop is concerned. From early spring it has been realized that the 1925 crop would be considerably in excess of that harvested last year and now, while no definite estimates can yet be made, it is expected that the crop will approach \$75,000,000 bushels. If anything approaching this figure is reached it is apparent that it will be necessary to import a large number of harvest workers into the west to help handle it. Such, of course, still depends upon continued favorable weather conditions but regardless of what transpires in the meantime the Canadian Railways are proceeding with their arrangements for the operation of harvesters' excursions on the assumption that there is to be a bumper crop.

Already several preliminary meetings have been held between railway officials and government representatives with the result that it is now estimated that between \$5,000 and \$6,000 harvesters will be needed in the prairie provinces in addition to those available locally. In fact, the total estimate of help required in the west is 60,000, but the several provinces figure that they can meet a part of these requirements by men available in the west.

A meeting will be held at Winnipeg July 24, attended by officials of the various governments of the western provinces and representatives of the Canadian National and Canadian Pacific at which more definite figures will be arrived at and this meeting will be followed by the formulating of plans for obtaining and transporting the harvesters required.

The arrangements for handling harvesters will be practically the same as in former years except on a larger scale. Every available car of the colonial type will be pressed into use by both roads and the usual arrangements will be made to look after the comforts of the excursionists.

placing of a light at Park road and the highway.

The Clerk was instructed to write the engineer re the enlarging of the Phillips ditch award.

It was decided to tax all dogs in the township, and the township Constable will confer with the assessor in the matter.

The Clerk will notify all interested in the Blair and Weaver ditches to meet the Council at Groom's farm in the near future.

Accounts to amount of \$179.39 were passed, and the pay roll for June 26 to July 17, amounting to \$739 was passed.

INJURED BACK

E. E. Wilcox, 25 Mountain street, severely injured his back and his ankle, on Thursday. He was about fifteen feet up on a ladder picking cherries, when the ladder broke and he was thrown to the ground. He is still confined to his bed.

MANITOBA GOVT. TO CO-OPERATE

Premier Bracken Announces Organization of Advisory Council For Mutual Benefit of Growers and Shippers.

Winnipeg, July 18.—Formation of an Advisory Council on Co-operative Marketing in Manitoba was announced today by Premier John Bracken. The purpose of the Council, as outlined by the Premier, is to establish a closer working arrangement between the various marketing units already established. The Council also would provide a body where practical experience and knowledge will be pooled for mutual benefit and advancement of sound co-operation.

N. C. Mackay, director of Agricultural Extension, has been appointed Chairman.

Gainsboro Council

Council Chambers, July 6. The record called the council to order and the minutes of the last meeting were read and confirmed.

Communications were read from the Soldiers Settlement Board re taxes; from T. H. & B. Railway re crossing east of St. Ann's; from Attorney General Department re supplies for constable; from Elmer Beamer, sheep valuer, report of damages to sheep by dogs.

Tenders for the construction of the Comfort Bridge were received from the Ontario Bridge Co., \$2700.00; Standard Steel Construction Co., \$2345.00; Hamilton Bridge Co., \$2400.

Mr. Ross and Mr. Hickey interviewed council re fire engine for Wellandport.

Moved by M. H. H. seconded by Baldwin, that this council accept the tender of the Hamilton Bridge Works for the Comfort Bridge at the sum of \$2400.00.

Moved by B. H. H. seconded by Baldwin, that the clerk be instructed to notify Mrs. Gates and J. H. Carr that the council do not intend to contribute toward their support any longer.

Moved by Fralick, seconded by Mingle, that on the strength of a petition presented by some of the ratepayers of the village of Wellandport the council intends to purchase a fire engine for the said village, and that the reeve instruct the Township Solicitor to prepare the necessary bylaws.

Moved by Mingle, seconded by B. H. H., that the reeve and treasurer be authorized to issue their cheques for the following accounts:

valuer \$1.00; Geo. Brady, milk for Mrs. Gates, \$2.50; Emory Miesner, meat for J. B. Carr, \$2.25.

A number of accounts for road and bridge work were ordered paid.

Moved by B. H. H., seconded by Fralick, that this council do now adjourn to meet Monday, August 3, at 10 a.m.

B. H. H. STRONG, Reeve. A. W. FRUITS, Clerk.

LIGHTNING STRIKES BARN OF JONATHAN L. BOOK

Torrential Rain and Severe Electrical Storm Sweep Over Grimsby District With Little Damage To Fruit, But Much Benefit To Land—2.23 Inches of Rain—Fire Loss Will Be About \$6,000.

One of the heaviest rains ever experienced in this district started on Tuesday night about 7.30 accompanied by an electric storm that increased in severity as the minutes went on for about an hour. According to the rain gauge at Mr. J. R. Gibbs' meteorological station there was just over two inches of rain fell last night and nearly a quarter of an inch earlier in the day, making a precipitation of 2.23 inches for the 24 hours.

A few minutes after 8 o'clock lightning struck and fired the big barn on the farm of Jno. L. Book

on the Stone road about a quarter mile south of Ridge road and the barn and drive house were completely destroyed, entailing a loss of some \$6,000.

The barn proper was 40 by 50 feet with a drive house 20 by 40 adjoining. In the barn there were 900 bushels of grain, about 15 tons of hay, a cow and some implements, which were all destroyed.

The torrential rain at the time prevented the fire from attacking the large house.

Enquiry does not disclose much damage done by the storm to fruit crops, but the rain will do a tremendous good.

VEGETABLE MEN TO MAKE TOUR

The Members of St. Catharines Vegetable Growers' association are arranging their annual motor tour to take place, starting next Monday July 27. They are leaving St. Catharines early in the morning and will make their first stop at Simcoe where considerable fertilizer experiments are being conducted. From there they will proceed to Ridgeway Experimental Station, and then on to the famous Leamington vegetable district. Return journey will be made via Chatham, London, and Brantford. In all this promises to be a very interesting three days trip. An invitation is extended to anyone interested to come along. For particulars ask the local officers of the Vegetable Growers. Mr. Howell, the secretary at Beamsville, R. H. Potter Beamsville, phone 684, or Agricultural Representative, W. S. VanEvery, at St. Catharines.

FACTS AND FANCIES BY FRANK FAIRBORN (Jas. A. Livingston)

The Right Idea—Positive-Iy!!

Mr. W. O. Sealey has sent out another circular to the press and public of Canada. The title of the circular is "Make Canada Prosperous." The line that Mr. Sealey takes up is that of an embargo or heavy export duty on all, or nearly all, of Canada's raw material.

Many men who receive this circular will give it but small thought, but let me tell you the matters dealt with are of transcendent importance, and at no time of more importance than at the present time.

Mr. Sealey makes the claim that his suggestions are "A Policy for All Canada"—and he is right. The pith of the circular is as follows:

(1) An export duty on our raw pulpwood and pulp.

I have held for years that Canada should manufacture all her pulpwood into paper and Sealey is right when he advocates an embargo on pulpwood.

(2) An export duty or embargo on our sawlogs, good quality rough lumber and all other raw or slightly manufactured products.

Right again Sealey! Our forest lands have been denuded of timber and much of it has gone to give employment to men in foreign lands.

(3) An export duty or embargo on raw or slightly manufactured asbestos and similar products.

Canada has almost a monopoly of asbestos and yet other countries are using it as if it were their very own. Mr. Sealey has the right idea on this product.

(4) An export duty or embargo on nickel, copper, gold and all other kinds of mineral products, until they are converted in Canada into reasonably finished products.

Canada practically supplies the world with nickel and yet this country is not getting half the benefits from its manufacture that foreign countries are getting. Mr. Sealey is absolutely right on the nickel, copper and gold question.

(5) A positive embargo on hydro electric energy.

Right again, Mr. Sealey! If there is anything that we need at home it is electric energy, and export should be absolutely forbidden.

(6) A reasonable embargo against foreign fruits and vegetables.

Now you are teaching us near home, Mr. Sealey! An embargo against foreign fruits and vegetables for six months in the year would bring prosperity to thousands of Canadian fruit farmers, and would do injury to no one.

(7) An embargo or export duty on wheat to countries that have a prohibitive tariff, or almost so, against us.

This is a very important plank in Mr. Sealey's platform. The United States millers import our wheat, mix it with their inferior wheat and sell the flour to European countries as Canadian flour. The way to stop this practice is to embargo our wheat to the United States and grind it into flour in Canada.

With further paragraphs in Mr. Sealey's circular I will deal in next week's issue.

Notes and Comments On Current Events

(By PETER PETERKIN)

The condition of Russia during the past few years appears to be excellent proof that civilization, stable government, and the preservation of law and order, in the last analysis, depend entirely on the existence of private ownership. For how can credit exist and pass from one person to another by methods of ingenuity of man has developed through long periods of time, if there is no solid foundation beneath a producer's feet? And this because he owns no houses or lands, no tools of trade and no rights to the products of his own toil.

Consequently he has no opportunity to advance himself in operation of hand, machine or tool; no means whereby he can contribute to the general welfare; and, most important of all, no security under law and government of the means to sustain himself. This—in spite of ostensibly professing to own all. And where there is no real man, how can there be a state? In other words, can an empty sack stand?

Can a fiction of government, levy taxes to pay loans upon a phantasmic man who is able to earn nothing unless he is hounded and driven by a tyranny composed of Bolshevik bands of robbers who themselves own nothing and profess to want to own nothing? The whole affair is a negation, and I reiterate that Russia has proved that government, civilization, law and order are impossible unless underwritten by the principle of private ownership.

Although most of the big landlords of Russia were banished or massacred during the revolution, a few were allowed to remain or have returned to their estates since the country began to settle down. A decree has now been issued depriving these of the right of farming what was their own land, but permitting them to obtain land in other provinces on the same terms as peasants who have been removed from congested areas. The excuse given is that these nobles do not farm well enough, but the real reason is the fear that they might become leaders in a counter-revolution.

The present Ontario government on the whole is doing fairly well, but is not yet entirely exempt from committing costly blunders; such for instance, as the matter of the Walkerton quarry purchased by the Ontario government with the idea of providing all the cement needed for the Provincial highways and the finishing of the hydro's Chippewa coast section. This quarry is now being dismantled and abandoned. And this attempted competition with private enterprise will cost the province only the small sum of one million dollars!

In this case it is probable that the government bought "a pig in a poke," as operations to open up the quarry showed that the quantity of suitable rock was very limited, and shortly after that the undertaking was abandoned. But that is not all; for the C.N.R. has left upon its hazy tracks a spur line which it built into the quarry and which is now of no use. A number of farms were also cut up by the right of way required by this spur. As President Cleveland once pointed out, the United States government has not a dollar to give anybody which is not taken out of somebody else's pocket. And it is important to remember that the same is true of any other government, whether national or provincial.

At last England appears to be thoroughly aroused in opposition to the dole—the weekly pensions being paid to the unemployed. Even George Lansbury, one of the most rabid of the socialist M.P.'s has attacked it in parliament in a passionate speech. He declared that the dole had caused "the wholesale demoralization of young men between 18 and 25." "No young man," he declared, "should be given a cent for doing nothing. If he will not go on a farm and work, he should starve. It is a crime against society to lead young men to believe that they can live by doing nothing."

This outburst from Lansbury, the founder of the Socialist Daily Herald, has had a great effect, and London is now asking for the first time how can the dole be abolished? According to official figures there are now 1,279,000 people drawing the dole, and they are receiving at the rate of \$250,000,000 a year. Of this money, employers are paying \$90,000,000; the government \$82,000,000; and the workers, 27,000,000. Truly a tremendous burden on the country, and it is not to be wondered at that England's industrial recovery from the war is slow.

Adolphus Pottleton married a telephone girl. Two years after the marriage she presented him with triplets. "Still giving me the wrong number!" the unfortunate man exclaimed. Wife—"I don't think Solomon was such a wise man." Husband—"Well, he was for those three, dear. Of course, that was before your mother and you came to this earth."

HELP BUSINESS.

They tell us that there are one hundred and twenty million people in the United States; and some of them boast of—others deplore—the money they spend in Canada.

But shaking it all down—and nature has been shaking them some lately—we will call it one hundred million people; and we will say that one-tenth of one per cent of them come across the line. That means a lot of money for those who are wide enough awake to reach for it.

That is a crude way of saying it, but it makes it plainer for many. Our personal opinion of the average "United States citizen" will not be promulgated, but the fact remains that they bring a lot of money into Canada—and are willing to spend it. Canadians, near the border, spend a lot of money over there. Whether they get value or not is not the point.

But to offset the good Canadian dollars that are spent over there it is up to us to show visitors from the south that there are things in this country worth buying.

It is not necessary to tell the average "gentle" of Canada that every dollar spent here by any outsider is a help to the country. But there are those who do not realize that it means something to them. It has been remarked time and time again by tourists from the south: "Oh! if I could only take that home with me."

Make it a point to see that the speaker be not disappointed. Tell them. Make it plain. That the United States Tariff Act of October 3, 1913, page 37, provides:

"That up to and not exceeding \$100 in value of articles acquired abroad by residents of the United States for personal or household use, or as souvenirs or curios, shall be admitted Free of Duty."

(a) Returning residents of the United States must declare all articles acquired abroad, in their baggage or on their person, whether by purchase, by gift, or otherwise, and whether dutiable or free of duty. Exemption, however, will be allowed by customs officers of articles aggregating a net over \$100 in value, if suitable for personal or household use, or as souvenirs or curios, and whether intended for the personal use of the passengers or as gifts or presents to others, provided the articles are not brought on commission for another person, nor intended for sale. But articles so exempt from duty must be declared.

"MAKE CANADA PROSPEROUS"

Stop Foreign Capitalists Filibustering All Our Natural Resources

Hamilton, Ont., July 16th, 1925.

To The Editor,

Dear Sir,—Weekly during the past two or three years I have been sending articles on Canada's affairs, to the newspapers of Canada, as well as circularizing Members of Parliaments, both Dominion and Provincial, in addition to Boards of Trade, Chambers of Commerce, and other public bodies and prominent citizens.

Many of the newspapers throughout Canada have published them, some very regularly, and from the multiplicity of personal replies received, I believe they have been pretty generally read and seriously considered.

A general election must be held within a year, and as neither of the four political parties have announced any very definite program or policy on which to appeal to the people, (except what is being done by the special interests), and as we have had little or no legislation recently, just largely voting supplies, and a few amendments to the statutes, that particular circumstances seemed to require, it looks like our going to the polls without any definite policy to vote for or against.

Therefore, I have sorted out and summarized the substance of the letters received, as well as personal interviews, respecting the matters dealt with, and herewith give the public the results, in the form of "A Policy for All Canada," believing that it represents a very considerable portion of Public Opinion, and in the absence of anything better, it appears the most likely to be adopted of anything before the people for consideration today.

Now if the "Make Canada Prosperous," herewith enclosed, meets with your approval, kindly so advise either through the Press or directly to the undersigned, and if before election day I receive sufficient sentiment along different lines, I will gladly announce them, otherwise I believe the enclosed draft represents a truly Canadian policy, that if adopted at the polls, would start us out of the rut immediately, and in a short time, convert our present conditions of stagnation into much activity, and greater progress, prosperity, development, and happiness throughout Canada, (and reverse the present exodus into a trek home), with many additions on the way.

Yours truly, W. O. SEALEY

"MAKE CANADA PROSPEROUS"

A Policy for All Canada.

By W. O. SEALEY

An export duty or Embargo on our raw Pulpwood and Pulp.

An export duty or Embargo on our sawlogs, good quality rough lumber, and all other raw or slightly manufactured forest products.

An export duty or Embargo on raw or slightly manufactured Asbestos, and similar products.

An export duty or Embargo on nickel, copper, gold and all other kinds of mineral products, until they are converted in Canada into reasonably finished products.

A positive Embargo on Hydro Electric Energy.

A reasonable Embargo against Foreign Fruit and vegetables.

An Embargo or export duty on Wheat to countries that have a prohibitive tariff, or almost so, against us.

Is it not time we stopped the foreign Capitalists Filibustering all our natural resources?

Improve our Fishing industry. Why the price of Fish so high to the consumer, and the fishermen making no money? Restoration of the 6c per bushel railway rate on Wheat, from the Prairie Provinces to Quebec.

The operation of the Canadian National Railways at rates just covering operating costs for the present, trusting to the immense increased business encouraged thereby, which would surely and quickly follow, to pay interest on the whole investment.

No amalgamation of the C.N.R. and the C.P.R., but a close co-operation to avoid overlapping in the meantime, with a probable purchase of the C.P.R. by the C.N.R. later on.

The operation of our Canadian Government Merchant Marine, with necessary additions, from Quebec to Britain, Europe and other distant markets, at a rate on Wheat, Cattle, etc., consistent with encouraging Canadian trade, freed from the effect or influence of the North Atlantic Conference, or any other combine influences, thereby greatly increasing our trade, with return capacity cargoes of merchandise or Welsh Anthracite coal.

Directing the shipment of our exports, so they reach their destiny to consumers, without passing through another country, and especially our Wheat, Cattle, etc.

Route all our shipments through Canada, via Canadian ports.

Grinding a much larger part of our Wheat in Canada, so our Milling industry will increase tenfold, the offal be fed here, and returned to the soil, thus tremendously stimulating our Livestock industry, fertilizing and improving our farms.

The rapid development of our Canadian Coal, and its transportation throughout Canada at moderate rates, so Canada, with a superabundance of this fuel will be self reliant, instead of almost entirely dependent on the Foreign Monopolists, sending them a hundred millions of our good Canadian money, every year therefor.

Developing our Iron Ore to our own uses and exports, instead of importing it all.

Take the Government Merchant Marine operating on the Pacific, to Australia and other British ports, out of the Combine immediately, and operate it in the interest of the people.

Public ownership construction, and operation of our Public Utilities for the people.

Employment for every man in Canada requiring it.

Encouraging the use of Canadian materials in Canada, wherever possible.

Yours truly, W. O. SEALEY

What John K. costs you

If you are a "John K. McCarthy" this message is for you

John K. McCarthy drives to his summer home every Friday night and comes back Monday.

It's 98 miles, and he makes it in less than 3 hours. His roadster can turn over 60 miles an hour with ease, and it rides comfortably at 45.

John K. gets about 14 miles to the gallon on the road. As a careful business man, he figures that oil and gas cost him about \$5.20 for each round trip.

No one could ever accuse John K. McCarthy of deliberately being careless with property, either his own or belonging to someone else. But every time his high-powered car gets above 25 miles an hour, it causes needless destruction to the road by grinding away the surface.

John K.'s trips to his summer home cost the people of Ontario more for road repairs than they cost John K. for gas and oil.

There are thousands of "John K. McCarthy's" in Ontario. They mean to be as careful with other people's property as with their own, but they do not know that speed laws are meant to preserve road surfaces.

If you are a "John K. McCarthy," this advertisement is addressed to you. The Government of the Province and the various County authorities have provided an extensive system of good highways over which you may travel without cost. They look to you to do your share in keeping these highways in good condition.

You wouldn't wilfully destroy property. Don't wilfully destroy the highways.

An advertisement issued by the Ontario Department of Highways to secure the co-operation of motorists and truck drivers, Automobile Clubs, Good Roads Associations and all other public spirited bodies, in slowing the speed of the roads of the Province.

The HON. GEO. S. HENRY, Minister; S. L. LAURE, Deputy Minister

In a less enlightened age people fought to safeguard their valuables. Often they placed them in a strong box which they hid in some secret place, hoping to protect them.

Today the safety and security of steel vaults eliminate the danger of loss by fire or theft, and give peace of mind for the safety of valuable belongings.

Documents lying unprotected in your house or office demand the security of a Safety Deposit Box.

MAINLY FOR WOMEN

Children To Blame?

A good deal of criticism is heard of the children of today, but when the case is inquired into carefully the fault usually lies with the example and environment under which the children are placed, for which their elders are responsible. Miss Mary Nowson, for 46 years a teacher in the public schools of St. Paul, Minnesota, closed her long service the other day, and at a public reception given in her honor, gave utterance to these wise words:

"There is much talk these days of our children, criticism of the way they live. I repeat that in them I have only pride, pride at their fearlessness, at their frankness, at their braving in facing the problems they meet."

"It is the greed of older men and women that makes and sells the styles of which we complain, that makes and sells the cosmetics whose use by youth we criticize, that makes and sells the liquor, that writes the books and produces the plays from which we fear so much."

"It is not the youth. It is the youth, instead, on whom we must and can rely to right these modern wrongs of life. The youth who frankly face and are not afraid of the problems they see ahead."

Miss Nowson declares, with a frankness that is almost brutal, that the children of today are the victims of the greed of their elders. Certain it is that their elders are responsible for the influences by which they are surrounded on every hand. If a little more thought were given to this, and less fault found with the rising generation, it might be better for the future of society.—St. Catharines Standard, July 7.

Fly Nuisance

Where do flies breed? In warm and strawy manure are the most popular breeding places, and they will breed anywhere in litter or filth.

Do flies live through the winter? No, they carry through an egg and in eggs, hatching out in the first warm weather. A single fly lays two to four batches of 120 eggs each, and lives from 15 to 20 days. Its eggs hatch into little maggots in a day or so, and in 10 to 20 days these grow to be adult breeding flies.

What is the first step in fighting the fly? Get rid of their breeding places. Where this is impossible treat the breeding places with about one pound of powdered borax for every sixteen cubic feet of litter, sift evenly over the surface and sprinkle with water. Do not use more than 15 lbs. of the treated manure to the acre. Use an effective fly poison. A good mixture is made of one teaspoonful of formalin to a cup of milk or sweetened water. Place this mixture in open pans.

Business fly sprays. There are several commercial fly sprays on the market that not only keep flies off cows but actually kill the flies. This spray is best applied with a small air pressure sprayer.

How can a fly trap be made? Remove both ends from a small barrel, cover one end with screening and put a screen funnel with an opening three-eighths of an inch in diameter over the other end. Place the trap on short legs and bait with bread and milk, sugar, decayed fruit, or something similar.

Love To Grandma

Mrs. Albert tells an interesting story of the ex-kaiser. She says: "I first met the ex-kaiser at Hatfield, a great house party given by the late Lord Salisbury. The Prince and Princess of Wales were among the guests, and I was presented to the emperor, who was very cordial, and hoped that I would sing in Berlin. This wish was fulfilled, and I sang at the Berlin opera, after which I was commanded to the Imperial palace. Here everything was carried out with great state, and the uniforms were truly gorgeous. The emperor could be very affable, and was so on this occasion. He came to the piano after every song, and talked to me about music and other topics. In fact, he talked to me so much that at last the emperor, with a touch of sarcasm in her voice said: 'William, don't talk so much to Mrs. Albert. You will tire her.' He then, and I am sure, said farewell, he said: 'I've my love to grandma. If you see her before I do. The homeliness of this phrase was such a contrast to the formality of the proceedings that I had a harkback to refrain from laughter."

Frequently we are like to show her a little in answer of the most, but fear to do so account of their turning back quickly. Sprinkle lemon juice over a slice. It will keep them white and improve the flavor.

Bouquet For Queen

Her majesty Queen Mary has accepted a bouquet of peonies from the collection of 2,000 blooms grown at Montreal and forwarded to the Canadian National railways' pavilion at Wembley, according to advice received at the headquarters of the Canadian National railways this morning. The Queen stated that she much appreciated the loyal and kind thought which had prompted the offering. All London is interested in the spectacular display of Canadian cut flowers. Princess Mary has also accepted a bouquet, and the peonies are also being used as floral decorations at a reception which is being given by Dame Margaret Lloyd George.

Queen Mary's Hat

Queen Mary is gradually altering the shape of her hats. Although still mainly faithful to the small toque, she has recently been seen in a taller shape with somewhat wider trimmings. The Queen does not, however, follow the prevailing fashion of wearing the hat low on her forehead, but puts it on in the old way, straight down on the top of her head, instead of from the back of her hair.

She is also fond of cloaks and wrap coats, says a society observer, and the picturesque style she now wears suits her very well. She has a great prejudice against black and avoids it except for strict mourning. In this she is in contrast to Queen Victoria, who enjoyed being swathed in folds of crepe and wore mourning for the most distant relative.

A teaspoonful of common baking soda, in the water when rendering lard makes it white and sweet. Another good idea is to put a thin layer of salt in the bottom of the jar in which the lard is poured to keep it from getting rancid.

PEDESTRIAN AND MOTORIST EQUAL RIGHTS ON HIGHWAY

Standard of Care Required By Law That of "Reasonable" Driver Says President of Motor League.

T. N. Phelan, K. C. President of the Ontario Motor League in the course of an interesting interview gives some valuable information to motor vehicle owners on legal points that to the lay motorist are obscure, equivocal, ambiguous or unknown. He states that the standard of care required by the law, of drivers, in the care a reasonable driver would exercise. He must do those things a reasonable driver would do and must not do those things a reasonable driver would not do.

President Phelan pointed out that neither the law nor the courts demand that a driver exercise extraordinary caution or be possessed of prescience or proceed with preternatural care. He stated that theoretically the motor vehicle driver and the pedestrian have exactly the same rights on the streets and highways. Illustrative of the standard of care and relative rights of pedestrians and motor vehicle drivers, he cited recent cases. In an appeal it was shown that a pedestrian had stepped at night from the side of the Toronto-Hamilton Highway onto the pavement while walking alone beside it. He was struck and killed by a motor vehicle. The Appellate Court held that the deceased had been guilty of negligence, in not first ascertaining that it was safe to step onto the pavement, and that it was not reasonable to expect a driver to anticipate such an action as he had taken.

Reasonable Care Expected.—In another case, a physician had parked his car heading down a grade. In addition to applying his set brake (hand or emergency brake) he had turned the front wheel in against the curb. A mischievous boy, in the doctor's absence, turned the wheels to the straightened position and released the brake. The car rolled down the hill gaining such momentum that when it came in contact with a house at the bottom of the grade, both house and car had their fronts smashed. The owner of the house took action to recover damages from the owner of the car, but was unsuccessful. The court held that the car owner had taken every reasonable precaution and that the accident had occurred and the damages had been sustained through no fault of his.

In case of fog or glare affecting visibility—the victim of drivers—the courts have held that it is reasonable and right to expect a driver to stop until he or she can see that the road ahead is clear for procedure.

Before guilt is established in case of an accident it must be shown that negligence was the direct cause of the accident. Previous negligence or previous reckless driving, speeding, etc., is irrelevant and has no bearing on the case. For instance, if a motorist at the time of or immediately prior to an accident is driving legally the fact that he was driving recklessly or was speeding or otherwise breaking the law five minutes prior to the accident has no value as evidence in the case. Even driving contrary to law at the time of an accident has no bearing on the driver's liability for the accident unless it can be shown that such behavior was a direct or contributing cause of the accident. By way of illustrating this President Phelan cited a recent truck collision case that occurred in the Niagara Peninsula. An unlicensed driver was in charge of one truck; the other truck was running run. Both, therefore, were being operated contrary to law. In the trial that followed the court held that their illegal operation had nothing to do with the accident—was not a cause—and so was irrelevant and not evidence.

Implied Consent.—President Phelan declared that there was one very important exception to this rule. It is that involving the province, county, township or municipality in which the ownership or trusteeship of roads is vested. Thus, some time ago, a truck two inches wider than the then maximum statutory width, crashed through a rotten bridge, doing much damage to the truck. Action to recover damages from the municipality involved was quashed although it was shown that the 2 inches over the width had nothing to do with the accident. The explanation of this seeming inconsistency is that the truck is not being constructed in compliance with the conditions under which the permit was granted for its operation in the province was guilty of trespass and its owner not only failed to collect damages but was required to defray the expense of repairing the damage his truck had done to the bridge. In this connection President Phelan pointed out that in case of damage done to motor vehicles by faulty highway or bridge action must be served on municipality within a week and in other cases within ten days.

Regarding liability, President Phelan

stated that not only is the owner at all times held responsible when a car or truck is being operated with his knowledge and consent but is also always responsible when his vehicle is being operated by his chauffeur even at times when the chauffeur operates it contrary to his instructions. Implied consent has been the phrase around which as many a legal battle has been waged. President Phelan mentioned two instances of interest that elucidate court interpretation of this "implied consent."

Some time ago a car was left by its owner in a garage for minor repair. The foreman of the garage took the car out at noon, drove it to his home, picked up his wife and family and drove around town. In the course of the drive he collided with and injured a pedestrian.

Right-of-Way Relative.—The courts held the owner liable for damages on the grounds that there was implied consent that the car be taken for test purposes. Again a motorist turned his car into a garage for winter storage, giving instructions as to battery storage and other matters. The foreman of the garage took the car out and injured a man. The car had been used by the foreman despite storage orders, and so the owner was not held liable.

The right-of-way law is relative, not absolute, and does not relieve anyone of the statutory obligation to proceed with reasonable care at all times. Its intent, President Phelan said, was to prevent, not excuse accidents—a fact that all too many drivers seem to lose sight of. He pointed out, too, that the legislature has given emphasis to the law requiring drivers on overtaking other vehicles moving in the same direction to make sure that the counter-moving right-of-way is clear before turning out to pass the overtaken vehicles.

The rights of a guest in a car, he declared, are exactly the same, in so far as the driver and owner is concerned, as those of a pedestrian on the road in front of a car.

Criminal liability, President Phelan explained, comprehends all cases involving criminal negligence or manslaughter, i.e., cases in which someone is injured or killed. No distinction is made, as many believe, between criminal and civil liability on the grounds of attitude of mind. This has been ruled by the Supreme Court.

President Phelan pointed out that the very important bearing this ruling had and has on insurance policies. Technically it made and makes them null and void in cases of criminal liability. However he declared it was only fair to state that except in very flagrant cases of criminal liability, cases in which it was manifestly to the interest of motorists that they do so, the insurance companies have not taken advantage of his ruling.

Finally he stated that he would not drive a car or truck a block without public liability and property damage insurance, so great was the hazard. Damages are being assessed commensurate with the loss in personal liability cases and a man with a large income is as easily injured or killed as one with a small one.

A. B. Patterson and family, who motored from Dallas, Texas, to visit Mr. Patterson's sister, Mrs. Pallard, 25 Oak street, started on their long motor trip back on Friday, the distance being sixteen hundred miles.

Following the new system placed in effect by the federal department of agriculture, fruit inspectors have been appointed in this section of the belt as follows: John Hyslop, Stoney Creek; Harry Higgs, Fruitland; Ross Hermiton, Winona; Hugh Bertram, at E. D. Smith & Sons; Mel Pettit, C. N. R. platform, Grimsby, and K. R. Kelles, Grimsby precursor.

UTTER-SWAIN
A very pretty wedding was solemnized at Fruitland United church, on Tuesday afternoon, when Ethel Swain, daughter of Thomas and Mrs. Swain, Fruitland, became the bride of Joel Utter, son of George and Mrs. Utter, also of Fruitland. Following the ceremony, performed by Rev. J. W. Hunt, the young couple departed on their honeymoon, after which they will reside in Fruitland.

BEAMER RE-UNION

The First Annual Beamer Re-Union will be held at the residence of Mr. Nelson Chadwick, one-half mile north of Blenheim on the stone road in the Township of Gainsboro on Saturday, August 2, 1925. All those who are in any way related to the Beamers either by birth or marriage are most cordially invited to attend.

All those intending to come by train on the T. H. & B. Railway please notify the Secretary in due time, and arrangements will be made for conveyance to meet both morning and evening trains at either St. Ann's or Smithville.

ADAM BEAMER, President.
ELMON J. HODGKINS, Sec'y.
ST. ANN'S, ONT.

Miss E. Suley, who has spent two weeks' holidays at home has taken a position at the "Right House," Hamilton.

The storm last week was not kind to the birds. On Depot street a robin nest was blown down with two badly frightened young robins in it. The Jarvis boys took it home and found one of the birds was lame, but they took care of them until the lameness was able to fly away to their friends.

BROKE HIP

Saturday afternoon, July 11, William George Calster met with a serious accident. He was drawing in hay and while unloading it a rope broke and he fell from the top of the load to the barn floor, striking his hip causing a very severe fracture of the hip bone. He was removed to St. Joseph's hospital, Hamilton on Sunday, and after an x-ray had been taken he was placed under the care of Dr. F. Mowbray, who, with the assistance of Dr. Zimstein reduced the fracture.

Aug. 30. Central United. Rev. F. R. Milliken.
Sept. 6. St. John's United. Rev. F. R. Milliken.
Services at 11 a.m. and 7 p.m.

BAPTIST PICNIC

The Baptist Bible School to the number of 140 journeyed to Port D. house on Wednesday last, to celebrate their annual picnic. Four large trucks and a number of cars conveyed the party. The usual happy time was spent about the festive board also bathing and softball were enjoyed.

Obituary

ROMANO BERNARDO

The death occurred on Friday, July 17, 1925, at his home, Ontario street, of Romano Bernardo. The deceased gentleman had been ill for about four weeks.

Mr. Bernardo was of a retiring disposition. He came to these parts to live about six years ago from the Parry Sound district, where he had lived for forty years. He was in his 74th year, and leaves as mourners his wife, a loving wife, one son, James, of Grimsby, and ten grandchildren and five great grandchildren.

The services were conducted in the presence of the church members, the deceased was a member. Bro. W. J. McClure, Los Angeles, Calif., who is visiting in Hamilton and H. Warburton, Hamilton, spoke at the house and graveside. The pallbearers were St. Bernard, Hamilton; G. Swanson, and R. Scott, St. Catharines, and H. McKeown, Winona. Interment was made at Queen's Lawn cemetery.

MRS. SARAH BENTLEY

The death occurred at the home of her son Arthur in Council Bluffs, Iowa, on Sunday, July 12, 1925, of Mrs. Sarah Bentley, aged 87 years.

Mrs. Bentley is the last but one of the Whitaker family well known at Grimsby as Winona for well over a half century. Samuel Whitaker of Grimsby, was the sole survivor.

Her lady had lived originally in Ontario, and the remains were brought there for interment. His sons at one daughter, and her brother S. Whitaker of Grimsby survive.

AUCTION SALE

FRIDAY JULY 24—On this date P. J. McKee living on the Fifty Road, Wino, will offer all her household furniture for sale by Public Auction—on at one o'clock. Terms—Cash. J. A. Livingston, Auctioneer.—See bill

MOTORCYCLIST IN DEAD ACCIDENT

Joseph Gagli, 30 Gerrard street, Toronto, captain of the dining room at the King Edward hotel, was badly injured on Monday by being thrown from his motorcycle near Beamsville. After lying in hospital the office of Dr. Elmer A. ... on Monday was able to be taken to his home on the C. N. R. in the afternoon.

The injured man, who had journeyed to the Falls on Sunday to see the illumination, had stayed overnight and was on his way back to Toronto early Monday morning and on coming to a sharp curve in the highway was thrown off his motorcycle, striking his head against the coping of the road. He was found about 8 o'clock by Mr. Courley, of the provincial highway and was taken to the home of Dr. Elmore, who upon examining him found that the man had a concussion of the brain, a broken collar bone and a scalp wound.

SMITHVILLE FIRE

About three o'clock on Friday morning, July 18, the large barn, belonging to David Disher, Smithville, was destroyed by fire, also a cow shed 14x30 and a straw shed 30x40, together with five tons of straw, 12 to 14 tons of hay, 35 hens, chicken house, an aged horse, and other contents of barn. The fire originated in one corner of the mow and it is thought to have been set on fire by lightning, as a storm was on, but no thunder or lightning appeared to be strong enough at the time. A heavy rain previous, helped materially in saving the house and other nearby property. Mr. Disher's loss is placed at \$2500, with insurance of \$500 on the building and \$500 on the contents. Three horses and some young cattle were rescued from the flames, and the other cattle in the barn yard were removed with little difficulty.

YOUTHS AFFECTED WAYS ATTACKED

London, July 12.—English youths with "patent leather hair, baggy overalls and trousers and affected ways, the counterparts of the American 'cake-ester' were flayed by the Daily Express as "snobs," "fools," and "non-composers."
"He is becoming a cult," says the paper, which adds he neither appeals to women nor they to him, while ex-soldiers find him "futile."
The paper says this latest product of modern society even wears perfume.

OPTOMETRY

It's value to the public.
By VERNON TUCK, R.O.
Grimsby, Ontario

While it is true that most people have errors of vision that are peculiar to themselves, the character of these errors is divided into scarcely more than three broad divisions.

These are far-sight, near-sight and astigmatism. A fourth class called presbyopia, or old sight, is not an error of vision; it is a condition which even the person with normal vision experiences, or begins to experience, along about middle life.

The Optometrist's usual patient is much more than one of the above class.

Our next article will be on far-sight.

Vernon Tuck

BASEBALL

The combination Beamsville-Grimsby ball team—the Grimsbys showed their stuff to the local fans for the first time this season on Saturday. Niagara Falls provided the opposition and although the visitors won 7-3 the fans were tickled pink as it was a real clean exhibition all the way through.

Chas. Fisher dished them up for Bud Reid's gang and turned in an excellent game mostly errors being responsible for his team's defeat. Artie Clarke did the receiving and in just an snappy behind the platter as he is on the left wing of the Peach Kings. McVicar, Reid, Wentworth and Red Farrell looked after the infield and turned in some really nice work—also the old error. Gillespie—Carson and D. Vin guarded the outer line without error. Phipps was injected into the game to pinch-hit for Davis and kicked through with a nice wallop. His second attempt was a nice outfield fly which brought in Red Farrell in the sixth for the last run. The locals made a great bid for the old game in the last inning but their rally was squelched after they had counted one. Hagen of St. Catharines handled the game nicely, his work and Happy Miller's resting being features. Here's how it happened.

1st inning: Reid caught out Steel while Wentworth looked after Bracken's grounder. Burns struck out. Reid grounded to the pitcher, Wentworth drove a hot one to third and made second when the visiting 3rd baseman threw wildly. McVicar sacrificed and Wentworth tallied when Fisher drove through short. Red Farrell struck out.

Grimsby 1, Niagara Falls 0.
2nd inning: Mulvey drove one to the road for three bases. Hamilton attempted to beat which went in the air Fisher sailing in and doubling. Mulvey at 3rd. A snappy play. Robbins struck out.

Carson grounded to 2nd base. Gillespie got P. A. transportation. Davis fanned. Clarke singled. Clarke and Gillespie each advanced one when they got the visitor's throwing the ball. Reid's hit brought in Gillespie but Clarke was caught at third.

Grimsby 2, Niagara Falls 0.
3rd inning: Steel out. Fisher to McVicar. K. Portia singled to centre. Klem Hunter struck out. Steel drifted to centre scoring Portia. Wentworth made a spectacular catch of Bracken's liner. Wentworth was safe on first baseman's error and went to second. McVicar popped to 3rd. Fisher out on a grounder to 3rd. Red Farrell flied to short.

Grimsby 3, Niagara Falls 1.
4th inning: Burns walked but was caught napping off 1st. Mulvey hit a high ball which Clarke garnered. He ran grounded to Fisher. Carson out, catcher to first. Gillespie and Davis both fanned.

Grimsby 4, Niagara Falls 1.
5th inning: Robbins safe on a hit to right field. Steel popped to Fisher who dropped the ball. Red Farrell's throw to Wentworth forced Robbins at 3rd. Portia doubled right. Klem Hagan grounded to McVicar, but Mac's throw in to Clarke was wild and Portia and Steel both tallied. Steel hit through short. Bracken struck out.

FOOTBALL

Grimsby Wins and Loses

The fans were treated to a fine exhibition of football in last Thursday evening's game in which Smithville were the victors.

The locals trotted out a good lineup and the game was fast and interesting. Our country cousins from the south were victorious in the first encounter which was played in Smithville a week previous but the locals had made up their minds that they had to play football to win and the result was a complete shut out of the Smithville team by six clear goals. Although the score was one sided the game was a long w. y from being so, and on many occasions it seemed as if the southerners were to be rewarded for their efforts, but Stone was right on and made some fine saves, keeping his net intact throughout the ninety minutes. Grimsby: Goal, Stone, Necha, Steel, Stargess; Halves G. Warner and Shoenridge; Forward's, Brinkall, McKeljohn, Jenkins, C. Flinta, J. Flinta. Referee, T. Agnew.

Saturday's game vs Dundas saw the tables turned against the locals who were on the short end of a 6-1 score when the whistle sounded for time. Dundas was well represented but unfortunately, Grimsby had to call on very signed player in order to field a team, many of the regulars were too busy with their work to be able to turn out.

One thing well worthy of mention in that Joe Rumbury had his first taste of league football and considering his limited experience turned in a good game. This youngster with a little coaching will soon shape up and it is to be hoped that some more of our coming generation will follow his example and get into the game. The first fifteen minutes was very fast, but the heat soon told its tale and the boys were dragged throughout the entire hour and a half. The first half saw Dundas leading by three goals to nil but the second was more even and each side tallied once. Grimsby was unlucky in not scoring more goals but the Dundas goals were right on and in fact in our opinion made some saves that caused the boys to wonder how it was done. It is hoped that in Saturday's game when the locals meet C. N. R. at Scott Park, Hamilton, more of the regulars will be seen in uniform. On their present form the rail-headers will have to go all the way to beat the team that met Smithville and the boys would do well to arrange to have that same team on hand when they visit the Ambitious City.

FOOTBALL SCHEDULE
OF HOME GAMES

August 13— vs Corinthians
August 20— vs Rockton

Burns grounded to Reid. Clarke flied to third. Reid flied to right. Wentworth struck out.

Niagara Falls 2, Grimsby 3.
6th inning: Mulvey flied to Carson. Hagan fanned. Robbins walked. Steel's grounder to Wentworth forced Robbins at 2nd.

McVicar flied one to 2nd and was safe but caught out starting second. Fisher out, catcher to 1st. Red Farrell walked but out stealing 2nd.

Niagara Falls 3, Grimsby 2.
7th inning: Portia walked. Klem Hagan drove one through 3rd for 3 stations. Steel bunted scoring Portia. Bracken fanned. Burns bunted scoring Klem Hagan and got knocked out when he collided with McVicar at first.

Mulvey doubled scoring Steel and Burns but was out trying to stretch it into a three bagger. Hagan grounded to Fisher, Carson flied to short. Gillespie walked. Fisher hitting for Davis singled. Clarke struck out. Reid grounded to short.

Niagara Falls 7, Grimsby 2.
8th inning: Robbins struck out. Steel also fanned. Portia walked but was out stealing 2nd. Wentworth struck out. McVicar grounded to second. Fisher flied to centre.

Niagara Falls 7, Grimsby 2.
9th inning: Klem Hagan grounded to short. Steel struck out. Bracken hit a triple to left. Burns out. Farrell to McVicar. Farrell singled to left. Carson singled one for 3 stations. Gillespie walked. Phipps flied to left and Farrell scored on the throw in. Clarke sacrificed but with men on 3rd and 2nd. Reid's best was a grounder to short.

Niagara Falls 7, Grimsby 2.
Line-Up
Grimsby: Reid 3, Wentworth's 3, McVicar 1st, Fisher 2, Farrell 3, Carson 4, Gillespie 5, Davis, Phipps 6, Clarke 7.
Niagara Falls: P. Steel 3, Bracken 4, Burns 5, Mulvey 2, Hamilton 1st, Robbins 2, L. Steel 3, Portia 3rd, Klem Hagan 3.

BEAMSVILLE HAS
GOOD SPORTS DAY

Three Good Races Provide Twenty Hosts All Well Contented—Vinceland Won Ball Tournament.

Excellent weather prevailed for the annual sports day of the Clinton and Louth Agricultural Society on Saturday, July 18, and a good field of horses for each of the three races on the card should have drawn a larger crowd. Starter Spiera had some trouble with the field in the second heat of the 216 class, but after that had fair sailing. The softball tournament had its devotees as well as the horse and dog, together, the attendance was well repaid for coming out. Summary:

216 class trot or pace—purses \$200:

Daniel Direct, John Monk

Thorold, (Monk) 5 1 1

Tom Brown, K. Nash, Tor-

onto, (Nash) 5 5 2

H. K. B. A. Turner, Hom-

ilton, (W. Farrow) 3 2 6

Alberta Hal, J. Sample,

Weston, (Sample) 7 4 5

Joe McKinley, A. Morrison

Hamilton, (Farrow) 4 3 4

Jack Abbe, Dr. Hyslop,

Milton, (Hyslop) 6 7 3

Desour, H. K. Bester, Mam-

ilton, (Fields) 3 6 4

Bela Bell, George Powell,

Trouton, (Powell) scratched

Time, 2:19½, 2:19½, 2:19½, 2:20½.

213 class trot or pace, purse \$200:

Albert Spaulding, South

Brow, Waterdown, (S.

Smith) 1 1 1

Little Hal, Isaacbeck, Brad-

ford, (Isaacbeck) 2 2 0

Minnie Hal, R. Powell, Tru-

ton, (Powell) 5 4 3

Alton T. Chas. Van, Pow-

erick, (Nash) 4 3 5

Bell Todd, 3 3 4

Time, 2:19½, 2:19½, 2:19½.

Third money in this class was divided

between Minnie Hal, Alton T. and

Bell Todd.

240 class trot or pace, purse \$200:

Frances McMillan, D.

Kilborn, Ancestor,

(Farrow) 1 1 5

S. G. Todd, A. L. Cham-

bers, Milton, (Cham-

bers) 3 3 4

Lucille Hal, D. P. Fry,

Deanville, (S. Hill) 3 2 1

Lady Scott, Isaacbeck,

Bradford, (Isaac-

beck) 2 4 3

Dr. Hal, J. K. Swartz,

St. Catharines,

(Swartz) 4 5 3

Time, 2:20½, 2:20½, 2:20½, 2:20½.

John Spears, Brampton, starter;

Dr. Green, Stoney Creek, and Harry

Graham, V. S. M. Catharines, Judge;

W. Swartz, W. Jerome, timers.

In the first game of the softball competition, thirty was beaten by the Beamsville stragglers, by the score of 5-2.

Vinceland beat the crack Jordan outfit by a score of 11-10.

In the finale, Vinceland won out from Beamsville, after a hard battle, score 12-4. O. Tolman umpired behind the plate, and W. D. Fairbrother on the lines.

SOFTBALL

The best of Monday night games was the Merchants-Offield's tilt resulting in a victory for the former by a 3-1 score. The result was in doubt until the last inning when the Merchants uncorked their heavy artillery and scored up the game.

The other game was between the Methodist team and Merritts. The former won by the score of 1-0. Merritt team give as the reason of their defeat that Moore, their catcher, could not play owing to injuries. This, no doubt, had something to do with them losing this game, as Moore, without doubt, is one of the ablest catchers in the league. Down at the Beach Farrells were the visiting team and in the absence of a Burroughs Addins machine the official score was given as 31-0—stuff out.

On the whole Softball is going good. Farrells seem to have the edge on the rest of the teams at present. At the start the Merchants looked as though they would beat everything in sight. But, according to Ann. Runciman, their captain, they "laid off" winning a few games in order not to discourage the other teams.

HELP

Sporting activities of all kinds have obtained a great foot hold in this community, and it is well for the physical and moral welfare of the population providing that the games are played in the proper spirit.

It is our intention to chronicle all the various events to the greatest extent and make this a real community sporting page—but to do so we must have the co-operation of the officers of the many clubs—baseball, softball, tennis, football, golf etc. Please let us have all the news concerning your clubs and we will do the rest.

A GRIMSBY NEED

The great need of the various athletic clubs in town is an enclosed playing field. For years the men backing the football—baseball and softball teams have had to dig down in their pockets to keep the pot boiling. Not because the games have not been drawing good crowds but because the so called sports will not kick in with the odd quarter to pay for their fun. A movement is on foot now whereby a suitable park will be provided not only to take care of athletics but also suitable for garden parties, firemen's conventions etc. If the men behind the project can put it over they will place Grimsby on the map for summer pastimes and on the same high plane that the Arena has looked after the winter sports. More power to them.

TENNIS

In the report last week of the scheduled games at Winona the men's doubles was reversed. It should have read that Bigger and Smith, Winona, lost to Morris and Shuler, St. Johns, Grimsby.

The Central United Tennis Club played their return league fixture with the St. Johns club at Winona on Saturday. The home club won thereby administering the first defeat to the Central.

The result of the games puts the St. Johns club tied with the Central for the league premier position—each club having won 20 points. The result of the games on Saturday 1st in the N. P. T. league were:

1. St. Johns Winona won from

Grimsby Meth. (Central United) 3-2

Ladies Singles—Mary Bigger lost to

Mrs. Johnson 6-1; 6-4

Men's Singles—Art Bigger won from

O. Johnson 5-7; 6-3; 6-4.

Ladies Doubles—M. Bigger, M. Pat-

erson won from E. Williams, E.

Graham 6-4; 6-2.

Men's Doubles—A. Bigger, L. Smith

won from Mr. Fuchs, Mr. Wells 6-1;

6-1.

Mixed Doubles—E. Hodgson, P. Wood-

cock lost to Mrs. Johnson, G.

Johnson 3-4; 3-4.

2. Lakeside Beamsville won from

Community Winona 4-1.

Ladies Singles—Mrs. Anderson won

from M. Brick 6-2; 6-2.

Men's Singles—Reg. Stone lost to C.

Eddy 3-4; 6-4.

Ladies Doubles—Mrs. Anderson, Miss

Shallard won from M. Brick, G.

Brick 6-1; 6-2.

Mixed Doubles—Miss Simpson, W.

Simpson won from G. Brick, H.

Bowen 6-2; 6-2.

Men's Doubles—Don Stone, W. Simp-

son won from C. Eddy, H. Bowen

6-4; 6-2.

3. Stoney Creek at St. Johns

Grimsby—Game not completed (and

to be finished July 23-25). Games

played resulted as follows:

Ladies Singles—Stoney Creek won

from Grimsby.

Men's Singles—Stoney Creek lost to

Grimsby.

Ladies Doubles—Stoney Creek lost to

Grimsby.

Mixed Doubles—Stoney Creek won

from Grimsby.

Men's Doubles—(To be played).

League standing to date—July 18

(after completion of games)

Won Lost

St. Johns Winona 21 9

Grimsby Meth. 21 9

(Central United) 21 9

Lakeside Beamsville 20 10

Stoney Creek 16 15

St. Johns Grimsby 9 29

Community Winona 4 24

Note—One game to be played be-

tween Stoney Creek and St. Johns

Grimsby.

BOWLING

Three rinks from the Grimsby Bowling Club visited the Methodist church club on Thursday night and were victorious by ten shots.

Moore's Phipps—Foster and Fore-

man were ships of the winning rinks

while Dr. Smith and Moore, Phipps

lost.

Moore's Phipps—Foster and Fore-

man were ships of the winning rinks

while Dr. Smith and Moore, Phipps

lost.

Moore's Phipps—Foster and Fore-

man were ships of the winning rinks

while Dr. Smith and Moore, Phipps

lost.

Moore's Phipps—Foster and Fore-

man were ships of the winning rinks

E. V. HOFFMAN, Grimsby

Local Items Of Interest

Mr. and Mrs. Harvey Schott and daughter, of Niagara Falls, Ontario, spent the past week with her mother, Mrs. F. Hurst, 29 Main street east.

Mrs. L. A. Ramsey and Master George Ramsey, of Buffalo, and Miss Laura Lee, of New York, are guests of Mrs. W. A. Coon, Grimsby East.

LeRoy and Charles Harrison, one time well known residents of Grimsby, called on friends in town on Sunday. LeRoy is attached to the engineering staff of the Canadian National Railways, St. Catharines, while Charles is the head of a large music publishing firm in Chicago—and recently placed on the market two new song-bits that were a "knock-out".

The 22nd annual gathering of the Mower re-union will take place at the Victoria Hall, in the village of Vineland, on Tuesday, August 18, 1925.

Bernard Johnson, son of Mr. and Mrs. W. G. Johnson, Livingston avenue, was savagely attacked by a large dog—while playing in front of the Arena, on Monday afternoon; the wounds being so severe as to cause the doctor to be called—the dog having bitten his arm in three separate places. Constable Wentworth spent most of the afternoon endeavoring to find the dog, without success—but is of the opinion it is from the neighborhood of Grimsby East, and he states the owner had better come and get it, as he will shoot it on sight.

While Stephen is holidaying at Lake Simcoe.

C. W. Duffield of Brantford visited in Grimsby last week.

Miss Nellie Bryant of Hamilton, spent the weekend with Jean Love.

Delbert Durham has gone on a trip to Kingston and will visit Wembley.

Wm. Miller of Toronto, spent Sunday with his brother, H. H. Miller, Main street.

Frank VanDyke of New Brunswick, New Jersey, spent his holidays at his old home here.

Richard Metcalf of Clinton St. Ont., is a visitor with his son H. M. Metcalf, Main street east.

Henry S. Oakley, of Winnipeg, is spending a couple of weeks in Grimsby renewing acquaintances.

Miss Jean Miller of Toronto, is spending her holidays with her cousin Jean Miller, 225 Main street.

At a meeting of Halton County Council, the county rate was struck at 7.4 mills, with 1 mill added for roads.

Mr. and Mrs. F. J. Chambers of Toronto, spent the weekend with the latter's sister, Mrs. H. H. Miller, Main street.

Rev. O. U. and Mrs. Chapman, of Windsor, spent last week, guests of the former's sister, Mrs. T. H. Richards.

Mr. and Mrs. Geo. Konkle are receiving congratulations on the birth of a son, at Windsor, July 24, George Edward. Mother and son both doing well.

George R. Shannon, trouble man of the Bell Telephone company, at Dundas, formerly of Grimsby, has somewhat recovered from his recent attack of diphtheria.

C. W. W. Johnson is putting a honey display in Anderson's Grocery Store this week end. This display includes an observation hive of working bees, which will be well worth seeing.

The fire department was called to the Village Inn on Friday morning to extinguish a blaze in an auto that had caught fire, burning all wires out of the machine.

Allen Nelson is at present in the hospital in Hamilton, where he underwent an operation for appendicitis on Friday last. His condition is very satisfactory.

Miss M. M. Chino, Director of Religious Education in the L. Fayette avenue Presbyterian church in Buffalo, is spending her vacation with her parents Dr. and Mrs. W. H. Chino at Grimsby East.

J. F. Meller, who traveled for the John H. Grant & Co. foundry some thirty-five years ago, was in Grimsby last week shaking hands with some of the boys of his time.

Dr. and Mrs. M. Kee, of Brighton, were here for the Woolverton-Liddle wedding. Mrs. McKee is stopping over to visit her parents, Thomas and Mrs. Liddle, Main street east.

During Rev. T. E. Richards' vacation the Baptist pulpit will be supplied by Dr. W. H. Chino and Mr. Wm. Wimer for the first three Sundays, and on Aug. 13rd, by the Hamilton Business Men's quintette.

The Niagara Historical Society has announced the date of the annual picnic for August 1st—between Heights, where a picnic luncheon will be served at 1 p.m. Tea will also be served at 5 o'clock.

"Bill" Atkinson, accompanied by his wife and child, spent Monday with his brother, James A. Atkinson, Main Road St. "Bill" is a resident of Newcastle Indiana—but still has a soft spot in his heart for Grimsby.

Rev. T. E. and Mrs. Richards and Lloyd, left on Monday for a month's vacation. They will visit at Oakville, Galt and St. Mary's.

Mr. and Mrs. Thomas Game and daughters Mildred and Vera of Marion, Mich., are visiting in and around Grimsby. Mr. Game is a brother of Mrs. A. T. Norton, Mrs. P. Blanchard of Windsor and Mrs. Wm. Game of Grimsby.

Arrangements for Galt's big field day at Stony Creek, on Saturday, August 15, are proceeding. A week's other things, the sports will include: softball tournaments for girls and men, soccer football games, tag-of-war and tennis tournaments. The "Creek" always has a good day.

FURNITURE SALE
The balance of the A. F. Hawke Furniture Stock Bids, Springs, Mattresses, Rugs, Karsh Window Blinds, etc., will continue on sale. Everything will be cleared out on account of fire alterations. The entrance is next door east of M. Orfield and Sons, upstairs.

BIG BARN BURNS NEAR VINELAND

Provincial Constable Joseph Nelson and Fire Marshal Robert Marsh, of St. Catharines will go to Vineland today to investigate a \$4,000 fire loss sustained by John Martin early Monday morning.

About 3 o'clock in the morning Martin's barn was discovered in flames, the fire having gained such headway that it was impossible to save the horses or any of the contents. With the barn, the fire destroyed 20 tons of hay, 4 horses, 2 buggies, 5 wagons and 5 sets of harness. The barn was insured for \$2,500. Martin resides on R. R. No. 1, Vineland, in the southern section of Clinton township.

HOFFMAN'S SALE IS STILL GOING

One of the best sales in Men's Wear that has been put on in Grimsby for a long time is now going on at H. V. Hoffman's, Main street east. The big advertisement on another page gives an inkling of what is before you, but it does not begin to tell of the many things that are to be picked up. And cold ink and paper does not tell it as a visit to the store will do. Drop in and look around anyway.

AUCTION SALE
FRIDAY JULY 31—On this date Mrs. F. J. Macklin living on the Fifty and a half, will offer all her household furniture for sale by Public Auction—Sale at one o'clock. Terms—Cash. Jas. A. Livingston, Auctioneer.—See Mills.

PAID UP LIST
R. C. Calkins, Grimsby, July 1, 1925
I. B. Murlitt, Kanawha City, Mo. July 15, 1925

Notice!

Owners of dogs in the Township of North Grimsby are hereby warned that they must not allow their dogs to run at large within the limits of the Town of Grimsby; and when their dogs are allowed to come into Grimsby, they must be on a leash as provided in the Town bylaw to that effect.

Township dogs found running at large in the Town in future will cause their owners to be summoned before the magistrates.

Police warning.
JAMES M. WENTWORTH,
Constable

OPTOMETRY

It's value to the public.
By VERNON TUCK, R.O.
Grimsby, Ontario

Far-sight is probably the most common of all errors of vision. Nature is able to overcome this defect in many cases in young people, which explains why a young person may suffer from far-sight without its being suspected.

But when the muscles of the eyes overcome far-sight a greater strain than normal is imposed upon the eyes, and very serious conditions often result. Being so prevalent, and so liable to be overlooked, far-sight is a common cause of many headaches and nervous disorders. See next article.

Kenneth
(To be continued next week.)

XX In The XX Churches

BAPTIST

Rev. T. E. Richards, B. A. Minister
Sunday Aug. 2nd
11 a.m.—Unified service. Bible school and church worshipping together. Rev. W. H. Chino, D. D. will preach.
7 p.m.—Evening worship—Dr. Chino, isn't it the truth, that the church has something for you, larger than business, more attractive than social life, more important than the mere pleasures of life?
Everybody Welcome.

LIGHT RE-UNION

Mrs. R. Lipsett, Mr. and Mrs. Gordon Lipsett, Mr. and Mrs. Awrey Lipsett and Sister Buddy and Douglas returned Monday from Mt. Brydges, after attending the annual Lipsett re-union which was held at Spring Bank Park, London, Saturday July 25.
Near 200 relatives were present from Buffalo, Grimsby, Hamilton, Stratfordville, Burgessville, Milton, St. Williams, London, Delawara, Mt. Brydges, Henshew, Mariet, and Detroit, Michigan.

GRIMSBY YEARS BEFORE NEW YORK

New York, July 25.—Gloria Gould, who forewore society and at the age of 19 had achieved no small fame as an aesthetic dancer and a writer, to say nothing of being a wife and mother, will add the management of a Broadway motion picture theatre to her many activities.
Gloria, daughter of the late George Jay Gould, recently expressed some ideas of her own on running a "movie house." She would have it intimate, smart, and most important of all, run entirely by women, from the operator in the little coop above the balcony, to the musicians in the pit. The Metro-Goldwyn-Mayer company, through Major Bowes, its vice-president, heard Miss Gould, and proffered her a contract as managing director of the new Embassy theatre.
The first picture is going to be "The Merry Widow," and Miss Gould, who in private life is Mrs. Harry A. Elshag Jan.
Grimsby has had a woman theatre manager for years; only Gloria has a Ph.D. press agent and gets spread all over the daily papers of America.

Obituary

In the obituary column last week the death was reported of the sister of George Whitaker, of Council Bluffs, Iowa. Unfortunately the name was published as Mrs. Bentley but should have been Dempsey.

DAVID GOWLAND

Death after a lingering illness removed a well-known and highly esteemed citizen of Hamilton, at his residence, 749 Cannon street east, on Saturday, July 25, 1925, in the person of David Gowland, aged 66 years. Deceased was born in Blackheath, and for many years was a prominent farmer in that vicinity. It came to Grimsby 17 years ago, and upon retiring eight years ago went to Hamilton to reside. He is survived by his wife, five sons, J. James, of Grimsby; William, Clarence, Harold and George of Hamilton; five daughters, Mrs. George D. Igleish, of Niagara Falls, N. Y.; Mrs. Clara Patterson, of Grimsby; Mrs. Austin Lorkin, of Grimsby; Mrs. James Mercer, of Hamilton, and Miss Margaret, at home; two brothers, George Gowland, of Syracuse, N. Y., and John, of Blackheath, and three sisters, Mrs. Sarah Kerns, and Mrs. Daniel Smith, of California, and Mrs. Herbert Davis, of Beamsville. The funeral took place from his residence on Monday afternoon at Queens Lawn cemetery Grimsby, the Rev. J. Allan Ballard conducting the service. The pallbearers were the five sons, and a nephew Isaac Gowland.

A. E. DOLMAGE

One of the older, and well-known residents of Grimsby district, A. H. Dolmage, who had moved to Hamilton some months ago, passed away peacefully at his home there, early Sunday morning.
Mr. Dolmage was born at Richmond Hill twenty-three years ago. When he was three years old his parents moved to Seaforth, Ont., where he spent his early years. There he entered a partnership with a brother-in-law, J. L. Smith, in a dry goods business which he followed for some years.

But his great fondness for art led him to give up merchandise and set up art as a business. His spare time had been devoted to the development of that talent from boyhood, and now he devoted his whole time to it, and specialized in portraiture. He opened a studio first in London, Ont., and later went to wider fields in United States.

The close confinement of the studio began to tell on his health after some years, so he gave up that work, and purchased a fruit farm in Grimsby locality.

There he led an active and useful life, among a large circle of friends until illness overtook him, and he moved to Hamilton.

Surviving him are his wife and two daughters, interment at Queens Lawn Cemetery Grimsby, at 2 o'clock on Tuesday 28th.

MRS. MARGARET McMAHON

The sympathy of a wide circle of friends in the Winona district, is extended to Mrs. W. J. Pyne, whose mother, Mrs. Margaret McMahon, met an untimely death in an auto accident at Chicago, on Tuesday, July 21. Mrs. McMahon was very highly regarded in the community and news of the fatality which claimed her caused a shock to the district. The funeral took place on Friday, July 24, at Toronto from the family residence.

Mrs. McMahon had been visiting with her brother-in-law, George McMahon, at Chicago, and was motoring through one of the main streets, when the machine in which she was riding was struck broadside by another auto from a side street. Her death was said to have been instantaneous.

CARD OF THANKS

Chief W. M. Tolbert and the members of the Grimsby Fire Department, are deeply indebted to the very hearty thanks, to the merchants and other citizens who so generously donated prizes for their Carnival of last week—and to the general public for the splendid support extended in attendance and patronage of the various booths.

BEAMER RE-UNION

The First Annual Beamer Re-Union will be held at the residence of Mr. Nelson Chadwick, one-half mile north of Blenheim on the main road to the Town.

August 6, 1925. All those who are in any way related to the Beamers either by birth or marriage are most cordially invited to attend.

All those intending to come by train on the T. H. & B. Railway please notify the Secretary in June time, and arrangements will be made for conveyance to meet both morning trains at either St. Ann's or Smithville.

ADAM BEAMER, President.
ELMON J. HODGKINS, Sec'y
ST. ANN'S CHURCH.

- HAVEN'S HAND PACKED TOMATOES— 43c Regular 2c, 2 for
- MATCHES—(Only a few cases left)— 27c 3 Boxes for
- TIP-TOP SOAP CHIPS—(Reg. 3 for 25c)— 31c 4 for

IT'S CHEAPER TO TELEPHONE us your order and have it delivered than it is for you to call at other stores and carry your bundle home (compulsory service).

In the first place the compulsory service—"the carry home"—plan causes you to buy in quantities small enough to conveniently carry them, and that means proportionately higher prices.

Then it takes the full time of one clerk to serve each customer when they visit all parts of the store to inspect the products, while one clerk in our store can wait on from three to five phone customers in the same space of time.

"WE GUARANTEE OUR GOODS AND OUR PRICES ARE RIGHT"

Home Grown Vegetables always fresh.

Phone Your Order Early and Get Better Results.

SPLENDID ROAD

Tourists have already begun to make use of the splendid new suburban road between Stony Creek and the soldiers' monument at the Delta, opened for traffic a few days ago. In a short time that part of King street from the Red Hill to the city pavement will have been resurfaced, and this will complete an attractive as well as a quiet route from Fruitland to Hamilton. It has been suggested that the village erect at the eastern junction a sign inviting visitors through the Creek, and mentioning the historical points along the route.

ATHLETIC FIELD WANTED FOR PLAY

Delegation Waits On Town Council With Request—Committee from Council and Applicants Will Meet.

The regular semi-monthly meeting of the Town Council was held on July 22, with Mayor Livingston, Reeve Mansell, Aldermen Bird, Durham, Fonger, Moxley and St. John present.

G. Arthur Payne applied for permit to abridge roof, cost \$50; Jas. A. Livingston for permit for repairs to house at 7 Depot street \$25; and George Gillette for garage on Maple avenue \$250. All were passed subject to the inspector's approval.

The clerk was instructed to have an engineer go over the much talked of water course through the properties west of Depot street.

A delegation waited on the council in regard to the purchase of land for athletic grounds. Considerable argument was indulged in pro, con, and irrelevant, acrimonious and pleading.

The particular spot mentioned was that at the head of Robinson street the purchase of which has been abandoned in the past.

When the Florig Luce became of normal size again it was decided that a committee consisting of the mayor, the reeve and A.M. Fonger should meet a committee from those interested, and report to council.

The Hamilton Light, Heat and Power company will be asked to have a representative meet the council re a new contract with the town.

The treasurer reported the receipt of \$500 from the B.V. Mac Company to apply on loan.

MEET OF WATER COMMISSIONERS

A special meeting of the Water Commission was held on Tuesday, July 14, Mayor Livingston, and Commissioners Singer and Hunter being present.

H. H. Farrell appeared on behalf of his firm, H. H. Farrell & Sons, Limited, requesting an extension of the water main on Elm street, for the better protection of their lumber-dockery property.

It was moved by Hagar, seconded by Hunter, and carried:—That the Commission grant the request of H. H. Farrell & Sons, Limited, to lay a six-inch water main with one hydrant, as fire-protection to their properties; and that the said work be done and cost met out of revenue account; said main to connect with the six-inch main on Main street at Parrow's corner, and be laid along Elm street to a point opposite Mrs. Davis' property, as agreed upon.

NEW TEACHERS ARE ENGAGED

A special meeting of the Board of Education was held on Friday evening, July 24, members present being S. F. Williams, Chairman, Messrs. Phipps, Clark, Wells, Thell, Campbell, McConachie, March McLeay.

On motion of Phipps and Clark, A. P. McArthur was engaged as an assistant teacher for the High School, at a salary of \$2,300.

Wells and Clark moved that Miss Lawlor be engaged for Junior Third class, at \$1,800.

On Monday evening, July 27, another special session of the Board was held at which considerable business was handled.

On motion of Wells and March, the matter of the new High school was laid over until Tuesday noon, in order to give local merchants an opportunity of presenting figures.

Moved by McConachie and Phipps:—That the Secretary be instructed to notify the Clerk of the County of Wentworth that our new High School will be open to pupils resident in the County of Wentworth on the same terms as to County of Lincoln pupils.

Additional fire insurance was authorized on the new school, to the extent of \$10,000—\$5,000 to be placed with W. H. Pettit and C. W. F. Carpenter, respectively; on motion of Phipps and Campbell.

The Secretary was instructed to reply to the County Treasurer to the effect that the Board had carefully gone over the claim of over payment on the part of the County, to this Board, for the past five years and found our accounts to be correct. The County Treasurer was requested to furnish a detailed statement of the items objected to by the County authorities.

COMPARE PRICES

How come that prices are what they are in Grimsby when we read that on Tuesday, July 21, the prices in Dunstable, twenty-one miles away were: Tomatoes—\$2.00 a qt.; Sweet Cherries—\$3.00 a qt.; Sour Cherries—\$2.00 a qt.; Black or Red Raspberries—\$3.00 a box; Pige—\$12.00 a pair; Potatoes—40¢ a qt.; Eggs—\$2.00.

Liddle-Woolverton

One of the prettiest weddings of the season was celebrated at Mapleshurst, the beautiful home of Mr. and Mrs. C. Ernest Woolverton, on Saturday, July 18, 1925, when their oldest daughter, Frances Thorne, was married to Mr. Francis Hugh Liddle, second son of Mr. and Mrs. Thomas Liddle, Grimsby. The ceremony was conducted on the lawn in an arbor of trees, Rev. T. E. Richards officiating. The wedding march was played by Miss Edna Smith. The bride was very pretty in white satin with full skirt of lace and Limerick lace veil, which formed the train, being caught with bow knots of orange blossoms. She carried a shower bouquet of roses and valley lilies.

Miss Vera Jarvis, in mauve with large mauve hat, was charming as maid of honor, and Miss Isabelle Woolverton, in peach, and Miss Adeline Woolverton, in apple green dresses, were dainty bridesmaids. Mr. Charles I. Burland attended the groom.

After signing the register, Mr. and Mrs. Woolverton held a reception at the east of the house, and there also the happy young bride and groom received the congratulations of their friends. The bride and groom left later by motor for Muskoka, the bride travelling in a brown crepe ensemble suit with hat to match and brown fox fur, the gift of the groom.

The groom's gift to the maid of honor and bridesmaids were a silver mesh bag and vanity cases; to the organist, gold pencil, and to the best man a gold-mounted key case. Mrs. Woolverton wore a French gown of blue, trimmed with blue lace, and a large black hat. Mrs. Liddle was in peach color, with hat to match. The out-of-town guests included Mr. and Mrs. B. Louver (Toronto), Mrs. J. R. Clark (Toronto), Dr. and Mrs. Clarke (Brighton), Mr. and Mrs. Harry F. Burkholder, Mr. and Mrs. Piper, Mr. and Mrs. Boyd, Mr. Malone, (Hamilton), Rev. John H. Gibson (York). Miss Reed caught the bride's bouquet, when it was thrown from the balcony. Mr. and Mrs. Liddle will reside, for the rest of the summer, at Jordan Harbor.

LINSE-BROOK

Christ's Church, Deer Park, Toronto, was the scene of a pretty summer wedding on July 18th, when Helen Beatrice, daughter of Mr. and Mrs. James Brough, (formerly of Grimsby), was married to Mr. Morris Schreiber Lambie, son of the late Mr. Lawrence Lambie and Mrs. Lambie, of Ottawa. Canon Loucks of Holy Trinity Church was the officiating clergyman. The bride wore a charming gown of gray and blue chiffon with embroidery of roses and carried a shower bouquet of bride roses. Miss Lucy Drummond, the bridesmaid, wore a gown of gray chiffon over rose and carried a bouquet of Opheelia roses. Mr. Pittman Lambie was best man, and the ushers were Mr. Boyd McLeay, Mr. Charles Roberts and Mr. Ray Young. After the ceremony, Mr. and Mrs. Lambie left for an extensive motor trip. They will reside in Toronto on their return. —Toronto Saturday Night.

Fonder and Better

July 22nd, 1925
Messrs James A. Livingston & Sons, Grimsby, Ontario, Canada.

Dear Sirs:

Much has The Independent become to me through out the years of my subscription.

I notice that my old receipt covers the year ending July 15th, 1925, and an enclosing remittance for next year.

The item herewith has been prompted by the splendid tribute paid the Canadian soldiers, which I have heard in all parts of the United States.

Yours truly,
I. B. Mariatt.

Hurrah For The Canadian Soldier
How many times I have heard this explanation from the American boys who were abroad in the Great World War. It is the unshared sentiment of American soldiers who came into contact with the soldiers of Canada in Europe.

Many incidents of heroism and bravery in battle are related of the boys from Canada—of their high courage and strict sense of honor—and of their delightful comradeship.

This sentiment springing forth from the hearts of our American soldiers, throughout all parts of the United States, has done much to develop a kindred feeling between Canada and this country and to cement our relationship as neighbors, though under different flags.

I feel it a privilege and an honor to have been born in Canada, and particularly in the beautiful historical Niagara District, and the wonderful tribute paid the Countrymen of my nationality—truly with admiration and delight.

Kind of The Wayne Land—My Native Land—I Congratulate You!

E. B. Mariatt
Kansas City, Mo., July 21, 1925.

The Assessment Commissioner's report on population for Niagara Falls, shows an increase over last year of 161. The figures are: This year, 17,300; for 1924, 16,139.

TOMATO DISEASES

Comprehensive List of Different Causes of Loss—Description of Diseases—Method of Control.

Bulletin No. 51, New Series, entitled "Tomato Diseases", by O. H. Berkeley, M. A., Ph.D., of the plant pathology laboratory at St. Catharines, has been issued by the Department of Agriculture. The bulletin deals fully with the tomato from the seed upward, but from it we take disease and other control only, lack of space forbidding the whole work.

Spraying and Dusting
The best fungicidal spray for tomatoes is Bordeaux 4:4:40. If an application is to be given in the seed-bed, a 2:3:40 is strong enough. It is to be remembered that spraying is a method of prevention, or checking of further spread, and is not in itself a cure. It is, therefore, always advisable to be on the lookout for the presence of disease in the tomato field, and to spray in plenty of time, if the fungus attacks warms. If the beetles or tomato worms are troublesome, lead arsenate at the rate of two pounds to each forty gallons of Bordeaux should be added.

A copper lime dust is also satisfactory for control of fungus diseases. If insects are to be combated, a copper lime dust containing calcium arsenate should be used. The composition of a good dust for this purpose should be 18 per cent to 20 per cent copper sulphate, 20 to 25 per cent calcium arsenate, and 58 per cent to 55 per cent finely screened hydrated lime. Such dust preparations can be purchased ready to use, and may be applied either by hand or by power duster.

Leaf-spot (Septoria Lycopersici) Spot
The leaf-spot or "blight" disease, as it is often called, is a fungus disease which causes numerous, small circular spots on the leaves, stems, and petioles of the tomato plant. In severe cases even the fruit is spotted. These spots are generally greyish in colour with a black border, although sometimes continuous black spots are found. The disease starts on the older, weakened, bottom leaves and, under favourable conditions, works its way upwards. Leaves that are badly affected turn yellow, dry up, and fall, so that in bad attacks the tomato plant becomes defoliated and the stems are left bare.

The damage to the crop comes largely from the loss of the leaf surface, as the leaves of a plant are the manufacturing units which produce the starches, sugars, proteins, etc., that ultimately make up the bulk of the solid matter of the ripe tomato. It can readily be seen that anything which impairs the production of these substances is bound to have a direct effect on the quantity and quality of the crop. A leaf disease, such as leaf-spot, reduces the manufactured output of the leaf surface of a plant in direct proportion to the number and size of diseased spots produced thereon, because in a diseased spot the manufacturing units are dead. Hence the fruits grow slowly or not at all. Half-matured fruit often fails to ripen, and fruit from "leaf-spot" plants is characteristically watery.

Leaf-spot is caused by a fungus, called *Septoria Lycopersici*, which lives and feeds on the tissues of the tomato plant. Leaf-tissue that is thus invaded by the leaf-spot fungus dies, and the characteristic grey spots on the leaves result.

This disease is present in almost every tomato field; in some localities, however, it is not generally considered of sufficient importance to warrant spraying, since it seldom becomes plentiful until late in the season. At this time the damage to the crop is of much less importance than when the disease becomes prevalent on young plants early in the growing season.

Control

Whenever this leaf-spot disease becomes prevalent in any district, early in the growing season a grower would be well advised to spray the roughly with a 4:4:40 Bordeaux mix. Two or three thorough applications of this spray material, at intervals of about ten days, should be sufficient. Where this disease recurs the grower should make the first application in the seed-bed. A thorough application in the seed-bed is generally sufficient to ensure a clean crop.

In districts where leaf-spot has shown itself to be a very destructive disease, the first application should be applied in the seed-bed, the second shortly after blossoming, and a third in about two weeks' time. However, in some seasons one or two additional applications may be necessary.

This disease is carried over the winter in the diseased leaves and tops that fall to the ground. Therefore, in the field a systematic rotation of crops should be in force. In the greenhouse all diseased leaves and tops should be carefully gathered and burned. A grower who practices a systematic rotation of crops, and whose fields are kept in a good sanitary condition, has gone a long way towards preventing an attack by this fungus.

It has been demonstrated repeatedly that staked tomatoes are much freer from this disease than unstaked tomatoes. This is due to better air

circulation and less humidity around the plant.

Blossom-End Rot

The first symptoms occur on other green or ripening fruits as an irregular, sunken, brownish area at the blossom-end of the fruit. Generally the disease advances rapidly and until the greater part of the lower half of the fruit shows a black, dry, leathery rot. The cause of the disease has not been fully determined, but it is usually associated with drought conditions or irregularities in the water supply. Excessive moisture followed by drought, or vice versa, favours the disease. It is thought that such conditions bring about sap pressures which rupture the tender tissues around the blossom-end of the fruit, after which fungi, or bacteria, or both, gain an entrance and initiate a definite rot. The black-rot fungus is generally prominent in this second stage of the disease. Rapidly growing plants are very susceptible. The writer had under observation two small garden plots in 1924 that showed 25 per cent to 35 per cent rot due to extra rapid growth in the early growing season. Later in the season after cessation of irrigation the trouble almost entirely disappeared. Plants grown on soil heavily fertilized with manure often show more of this disease than those growing on a soil less rich. This trouble is generally less prevalent on sandy soil than on heavy soils.

Very little can be done in the field to check this disease after it has become established. In the greenhouse, however, a regularity in the water supply should be maintained. In the field, control measures must be based upon the facts mentioned above. That is, everything done to ensure (1) an even steady growth, (2) fairly rich soil conditions, and (3) deep root systems, will aid in preventing the disease. This means deep preparation of the soil, a fairly rich sandy loam, thorough cultivation, and everything else that will keep the plant in good growing condition.

Target Spot, Black Rot, & N. Rot (Alternaria Solani, E. & R.)

This fungus causes both a leaf-spot and a fruit-rot, though the rotting of the fruit is by far the most important phase of the disease (fig. 3). The rot on the fruit starts usually in some small wound, crack, or most often probably in the punctures or bites made by insects. The disease is always much more prevalent and severe in early tomatoes which are allowed to become woody towards the end of the season. Such wood growth holds the humidity around the plants and makes conditions very favourable for infection by rot fungi. It is also probable that insects find such growth a favourable retreat. The resulting rot-spots slowly increase in size and become black, leathery, sunken areas. On the leaves circular, dark brown to black spots of various sizes are produced. These spots, often up to one-half inch in diameter, are readily distinguished by their peculiar ring-like, or concentric, markings, hence the name "target spot". When these spots occur around the edges of the leaf, as they often do, their symmetrical, ring-like appearance is often lost due to the uneven outline of the edge of the leaf.

Since this same fungus is carried by the cause of the early blight of potatoes, and is said to be carried over winter on old, dead leaves, tops, and rotten fruit, care is destroying or burying all such affected material is a fundamental step in the control of this disease.

Control

Spraying with Bordeaux as outlined for leaf-spot will give a good measure of protection, but, according to the experience of numerous growers, cleanliness and proper rotation are equally efficient in protecting the crop.

In districts where black rot is prevalent, spraying should be started at the seed-bed and followed by regular applications in two-week intervals.

Phoma Rot (Phoma destructiva) Flower

Further south this rot has been met with to some extent and, on account of the yearly importation of early southern tomatoes, it may be introduced here. In one case reported by the Dominion Botanist a variety of Florida tomatoes entered Montreal, in which practically all the fruits were attacked by this rot. It is chiefly known as a fruit-rot, though the fungus may attack the leaves and produce spotting. On the ripe fruit dark, sunken spots are produced. The older spots are dark in colour and are surrounded by a zone of water-soaked tissue. In the dark centre are to be found numerous black or brownish specks, the spore-bearing organs. On the green fruits the spots are smaller and the water-soaked border is not so evident. The fungus is apparently able to enter the skin of the fruit only through wounds or insect punctures, and will, therefore, seldom become a serious pest. Leaf infections may take place more readily. Irregular, blotchy, dead areas are produced, and when these are plentiful the leaves are cast. On both leaves and fruit infection takes place most readily under humid conditions.

Destruction of all diseased plant material would appear to afford sufficient protection from this disease.

(Continued next week)

RASPBERRY MOSAIC

Raspberry mosaic this year is later than usual in showing up, however at the present time it is quite pronounced especially on such growth. Mosaic symptoms are apparent ONLY on the LEAVES, which show a fine to coarse yellowish-green mottling. That is, the surface of the leaf shows green and yellowish-green areas of various sizes. The leaf in time generally becomes puckered as well. The dark green areas are often raised and blister-like in appearance. The leaves however do not wilt and dry up. The bush, as a whole, in time becomes dwarfed.

The Inspection Service maintained by this laboratory has clearly shown that this is the most serious disease with which raspberry growers have to contend. In many sections of Ontario plantations are 25 per cent to 50 per cent infected. In New York State even a worse condition holds and many districts there show 100 per cent infection.

Mosaic is now general throughout Ontario and the growers must realize this fact, get acquainted with the disease and strictly enforce the control measures, if the growing of raspberries is to remain a paying proposition. Do you know mosaic? If not, write this laboratory for particulars as to symptoms, nature of disease, control, etc. If you have a large commercial planting request an inspection, by one of our inspectors. If an inspector is in your district this summer, he will then call upon you. Inspections are however made only upon request. This service is free.

In the Niagara Peninsula where mosaic has been very general and severe during the last five years, there are now many plantations practically free from this disease. How has this been accomplished? "Certified stock" and careful "roguing" of diseased bushes, is the answer. The Dominion Laboratory of Plant Pathology at St. Catharines has now been carrying on a raspberry certification service for the last three years, and as a result of this service many acres of "certified stock" have been made available for planting. This stock is practically disease-free and has given in most cases entire satisfaction. From observations and inspections we have found that where this stock has been set out and has been CAREFULLY ROGUED by the grower DURING THE GROWING SEASON, that in most cases only a fraction of one per cent mosaic is now present. In many such plantations no more than 20 or 25 plants have had to be rogued during two years. Therefore from three years experience with certified stock it would appear that plantations of certified stock can be kept PRACTICALLY FREE FROM MOSAIC by careful INSPECTION AND ROGUEING on the part of the grower. However in this connection let us strongly point out that "certified stock" is only the first step towards ultimate control. It is absolutely essential that careful inspection, and THOROUGH ROGUEING be practiced in the new plantation of certified stock.

Certified stock will be available again this Fall and next Spring. A list of growers having this stock for sale will be mailed early in October.

CONTROL OF INSECT PESTS

By HENRY J. MOORE

There are very few insect pests of our garden which cannot be exterminated by the use of simple measures. At the present time aphides appear to be quite numerous and there are many varieties, all of which may be controlled by the same measures. Perhaps no other insect has been more troublesome in our gardens. Rose bushes, snowballs, and even vegetables, such as cauliflower, fall a prey to the aphides unless the latter are controlled, this being a very simple thing to do.

The aphid is a sucking insect. It pierces the skin (epidermis) of the plant, and sucks the sap, which is up food, from the inner cells. As it does so, it cuts the outer surface of the plant, arterial or other vascular tissues will not injure it. The remedy, therefore, is to apply an insecticide which will cover its body, so that it, or of such a caustic nature as to burn or otherwise injure the insect. Any solution of alcohol in the proper proportions is a good remedy, as immediately on contact the insect is killed.

Nothing can be more simple when about to spray for aphides than to add one ounce of nicotine sulphate to each gallon of water necessary and enough good soap to make a lather. When the solution is churned by means of a pump, if pure nicotine is used instead of the sulphate two or three teaspoonfuls to the gallon of soapy water may be used. Old middew or worthless tobacco stems, leaves, or even old cigars, if boiled, will make a splendid solution if a little soap is added either when boiling or when the liquor is finally drained.

We strongly recommend all growers who are contemplating setting a new plantation to use only healthy "certified stock". The FIRST step towards mosaic control. Then once the plantation has been set out it is necessary to systematically inspect it and "rogue" any diseased bushes that crop in.

This disease is very general and severe and one which left unchecked, will in time ruin a plantation. It is therefore up to the grower to get acquainted with this disease and to carefully enforce the known control measures. Experience has shown that where this is done a healthy, productive plantation results.

For any further information on this or other plant diseases apply to—

DOMINION LABORATORY OF PLANT PATHOLOGY, 864 St. Paul St., St. Catharines, Ont.

G. E. Berkeley, Pathologist-in-Charge, A. E. Jackson, Assistant Pathologist.

A Link With The Dead Past

Mr. and Mrs. Thomas O'Leary, who recently celebrated their Golden Wedding, have been for practically their whole married life custodians of the treasures in the historic Chateau de Ramenay in downtown Montreal.

"In this storied building," said Mr. O'Leary recently, "we lived in 1765 by Claude de Ramenay, Governor of Montreal, there have been entertained many men and women whose names shall live forever, General Amherst, Benedict Arnold, Marquis de la Fayette, Benjamin Franklin, Jonny Lind and Charles Dickens have been among its visitors.

As Mr. O'Leary turned to remove the telephone, one's mind instinctively recalled the Indian messenger of the military courier of other days bowing low before the Governor in this very room and departing upon errands which often took months to perform. The sturdy walls of the old Chateau keep intact many precious mementoes of the old regime.

WHAT IS WRONG WITH GRIMSBY?

Things in Grimsby are not what they should be. Merchants have found their receipts growing smaller each year. Athletic games of all kinds are not patronized the way they should be. Grimsby's Arena—the finest in any town in Canada—does not receive the support it should.

Every time a few of the town's best citizens get together the same old question arises—"What's wrong with Grimsby?"

We believe that the only way a solution to the problem can be found is by means of a free discussion, and we propose to devote a series of articles to the subject.

Worth while letters regarding this question addressed to the Editor and properly signed, (not necessarily for publication), will be given prominence so that all sides of the matter may be brought up.

We propose to go into the subject, in an impartial manner; discuss it from all angles, and offer whatever solutions we can.

NIAGARA PENINSULA SOFTBALL

The team representing Bartonville in the Niagara Peninsula Softball League played here at the School Grounds last Friday night. It was a pretty good game, although it ended in a one-sided score of 14 to 3 in favor of Grimsby. A fairly large crowd witnessed the game.

Last Tuesday night Grimsby went to Fruitland for a friendly game. The weather wasn't any too promising but they started the game. After five innings the game ended in a storm. Just what kind of storm we have been unable to find out. No one seems to know what the score was or who was ahead.

LOCAL SOFTBALL

Two good games were seen on the School Grounds last Wednesday evening. The first one between Farrells and Offields which was won by the former 14 to 3. Errors were costly to the Offield team.

The other game was between the Merchants and Methodist Church. The church boys easily won from the shopkeepers. This game went as an exhibition game as the schedule in error gave these two teams three games instead of two, and they had softball fans don't miss this game!

TWO GOOD GAMES THIS WEEK

Local Softball fans will be privileged to see two good games this week. Tonight the Beach team will play the Methodist. These two teams have been playing good ball lately. The other game between Farrells and Merritts is postponed until Friday night. This will be the game of all games. The last night these two teams played the score was tied. Merritts claim there will be no doubt about the game being theirs this time. So Softball fans don't miss this game!

Three other games which have been postponed on account of wet weather will be played next week on Tuesday, Wednesday and Friday evenings.

Tuesday—Merchants vs. Farrells.
Wednesday—Methodist vs. Offields.
Friday—Farrells vs. Offields.

SOCCER TEAMS TIE

The third game of the four game series between Grimsby and Smithville ended in a two all score at Smithville, on Thursday evening last, and attracted a good crowd of spectators.

The Grimsby team outshone their opponents in team play and clever footwork, but when it comes to laying on the beef, well, brothers, believe us, the southerners have the art down to perfection.

The game was under way by seven o'clock and the pace was very fast throughout. Right away Grimsby was very aggressive and Brignoli missed the goal by inches. Geo Warner caused the goalie some anxious moments when he put a strong shot into the corner only to have the custodian tip it over the bar. Play continued in the Smithville end for the greater part of the first half, but it was not until about five minutes before the end of the session that Geo. Warner found the goalie wanting. After the resumption, Smithville pressed a little harder, and Mr. Ref. was asleep at the switch when the ball was passed across to Smithville left winger who Tom Warner claims was a mile off side. Tom having no chance at all to score. Smithville 1, Grimsby 1.

The second half saw both teams settle down to some real hard work, and after fifteen minutes elapsed Brignoli scored Grimsby's second tally.

GEE-BEE TEAM COMES TO LIFE

It looks as if the Gee Bees are on their way a last. They uncorked a good game against the Falls a week ago, and last Saturday they invaded Port Colborne and cleaned the works, the score being 7-5. Some sensational fielding, with our old enemy, and now friend Pop Shepherd, being guilty of the team's only error. Some nice pitching and hits when needed did the job.

For four innings, Ches. Fisher held the home team's scoreless, our boys meanwhile tallying 5 runs; but in the 5th and 6th the Port crew notched 3 and 2 runs, tying up the old ball game. Phipps started the 5th but couldn't get going and was promptly pulled in favor of Roy Fisher. The fair haired one had his opponents eating out of his hand for the remainder of the game, while in make victory secure our lads hammered out two runs in the 6th.

The Fisher boys were the team's heavy artillery, Ches. helping himself to two home runs while Ray kicked in with a 3 bagger.

On Saturday afternoon next at two o'clock the Bridgeburg team will be entertained by the Gee Bees on the local diamond. A real good crowd should be on hand. Saturday's Gee Bee line up was:

Fisher, Clark c
Fisher, Phipps, Fisher p
McVicar, Clark, Wentworth 1st.
Reid 2nd
Wentworth, Shepherd s s
Red Farrell 3rd
Carson c f
Gillespie 1 f
Clark, Fisher r f

HOCKEY CLUB TO HAVE CARNIVAL

Plans are under way for a monster Garden Party, under the auspices of the Grimsby Hockey Club, to be staged in the Village Inn grounds on Thursday and Friday nights, Aug. 13th and 14th.

Besides the usual games, etc., a high class entertainment will be produced each evening under the direction of Geoffrey Johnson and Henry Miller.

The general committee is composed of "Lee" Farrell, Fred Hendricks as Treasurer and "Buddy" Fisher as Secretary. "Gene" Swayne will look after the grounds—"Bert" Fonger and "Sandy" Globe are going to see that there's lots of music, and a big prize—"Dick" Johnson and "Chief" Talbot are in charge of the games—"Bant" Culp, and "Perc." Robertson, "Bammy" Bonham and "Stoney" Kidd are arranging the dancing—Henry Miller and Harry Metcalfe will provide a fireworks display and Harry Campbell will be chief salesman.

Every member of the Peach Kings will have a booth or attraction of his own and the boys are busy doling out their stunts.

Keep these two dates open—Aug. 13th and 14th, and watch for further details.

with a fast low drive. It was a beautiful goal following a sweet piece of combination work from a throw-in. At this stage the game became really strenuous. The referee made no attempt to hold the rough stuff down and the brand of football was not so good as a result. Both teams bodied heavily and our country cousins were none too particular whether they kicked the ball or the man; it made no difference to the ref. neither. About five minutes from time, play was held up by the interference of a rabid spectator who addressed some rather insulting remarks to one of the Grimsby lads. The trouble was averted by the prompt action of his team mates and the game was under way again. Almost immediately one of the Smithville forwards raced for the Grimsby goal beating Ernie Mason who was suffering from a lacerated leg, the result of a kick, and shot. It seemed that the goalie had caught the ball on the bounce, but was unable to hold it, and the second tally was hung up on the Smithville side of the board.

The game ended with neither side able to break the tie.

The last game of this series takes place on the School Grounds here on Thursday evening. We would like to see the locals better supported by the fans. Smithville is bringing down a good crowd of supporters and as the honors are now evenly divided each team having won one, lost one, and drawn one of the three games played, the rubber should be interesting.

(Time Called Off)

Owing to threatening weather Saturday's Soccer Game against the C. N. R. team of Hamilton was postponed.

TENNIS

Results of the Tournament played in the N. P. T. L. Saturday July 25, 1925

1. St. John's Winona won from Community Winona 5-0

Ladies Singles—St. John's won from Community 7-3; 6-3

Men's Singles—St. John's won from Community 6-4; 6-3

Ladies Doubles—St. John's won from Community 6-4; 6-4

Men's Doubles—St. John's won from Community 6-1; 6-3

Mixed Doubles—St. John's won from Community 6-3; 6-3

2. Grimsby Moth. (Central United) won from St. John's Grimsby 3-2

Ladies Singles—Grimsby Moth. won from St. John's 6-1; 6-3

Men's Singles—Grimsby Moth. lost to St. John's 3-4; 6-6

Ladies Doubles—Grimsby Moth. won from St. John's 6-1; 6-3

Men's Doubles—Grimsby Moth. lost to St. John's 6-3; 3-4; 6-3

Mixed Doubles—Grimsby Moth. won from St. John's 6-4; 6-4

3. Lakelands Beamsville won from Stoney Creek 3-1 (One game still to be played).

Ladies Singles—Lakelands won from Stoney Creek

Men's Singles—Lakelands lost to Stoney Creek

Ladies Doubles—Lakelands won from Stoney Creek

Men's Doubles—Lakelands won from Stoney Creek

Mixed Doubles—Game to be played.

STONEY CREEK IS SEEKING WATER

Much Investigation Has Been Done and Public Meeting Is Called For Thursday, July 30

Stoney Creek, July 28.—Fostered by a number of public-spirited residents who realize its vital importance to the village, the question of water supply will be dealt with at an open meeting in the institute hall, on Thursday evening, July 30. The committee of ratepayers, appointed a short time ago when the matter of fire protection was being considered, has gathered considerable data relative to rural water systems and will report fully at next week's meeting. Aside from this it is expected one or two visitors will throw some light on the subject. Members of the committee as well as other residents feel that the time has arrived for some definite action along this line, and it is hoped the people of the community will turn out in large numbers to discuss the question.

Some are of the opinion that the first step towards a water system is to obtain incorporation as a village, and thereby provide the necessary organization to take charge of the movement. Others, however, believe a water service can be arranged for and maintained without incorporation, but generally it is thought that the possession of a charter would be in the best interests of the community.

To date there have been a number of suggestions for the provision of water, but only two have met with any degree of favor. One is to make use of running springs on the mountainside, said to be sufficiently productive to meet requirements for years to come, and the other is to install a pumping system and obtain the supply from Lake Ontario.

There is support of the movement among the people to give it wholehearted consideration in the interests of themselves as well as the village.

The advantage of having running water in the homes is already known, properly valued in the community would increase substantially and the question of fire protection would be solved.

Never try to show off your radio before company, says Dick Monda. Pride goes before a fall.

WENTLESS SLEEP DUE TO STOMACH GAS

Gas pressure in the abdomen causes a restless, nervous feeling and prevents sleep. Alderlin removes gas in TEN minutes and brings out surprising amounts of old waste matter you never thought was in your system. This excellent intestinal cleanser is wonderful for constipation or stomach trouble. Don't waste time with pills or tablets but get REAL Alderlin action!

LESLIE J. FARNELL, Druggist.

INSTALLATION BY HYDRO OF WATER

It is difficult to avoid a draft and get fresh air, but if you overdraft you get the air promptly.

Mr. Lee, clerk of the township of Selfridge, a short time ago suggested to the Hydro commission that it consider the advisability of supplying water to rural municipalities along lines similar to those by which power is supplied at present. Mr. Lee has been advised that the commission has no authority to undertake such a venture. It was intimated that provincial legislation would be necessary before the proposal could be considered.

Mr. Lee feels that, in view of the public benefit which would be derived from such a service, township councils as a whole should endeavor to obtain the necessary legislation. This request of Mr. Lee was backed by the need of Stoney Creek and vicinity. A recent disastrous fire in Stoney Creek caused the citizens to petition the council for a bylaw which the council was ready to submit to the people of the affected area, but it was found that further provision would have to be made to comply with the act. Mr. Lee's idea would be a grand thing if the Hydro Commission would take it up and get the necessary legislation.

Daily Fashion Hint

ATTRACTIVELY DESIGNED

As useful as it is smart in this frock in jersey—natural color, of course. The front and long, close-fitting sleeves are trimmed with fancy buttons in a soft shade of brown, and there are inserted pockets on either side of the front. Where the underlaid front is closed and turned back to form revers, a tiny venter of white silk shows. The collar corresponds with the revers. Medium size requires 2 1/4 yards 34-inch material. Pictorial Review Printed Pattern No. 2659. Sizes, 16 to 20 years and 34 to 44 inches bust. Price, 45
